 Translation: My first atlas correction helped me a lot. After a short time, I felt that my head was much clearer. I no longer had the impression of being under a bell. However, in the lumbar region, there were more problems like sudden and intense muscle pain. At the moment, it is better; I still have problems in the morning after getting up, which then improve with movement throughout the day. Best regards  Original: Meine erste Atlaskorrektur hat mir sehr geholfen. Nach kurzer Zeit hatte ich das Gefühl, dass mein Kopf viel freier war. Ich hatte nicht mehr den Eindruck wie unter einer Glocke zu sein. Im Lendenwirbelbereich waren dann allerdings mehr Probleme wie plötzlich einschließender und starker Muskelschmerz. Im Moment ist es besser, ich habe morgens nach dem Aufstehen noch Probleme, die dann bei Bewegung im Laufe des Tages bei Bewegung besser werden. Viele Grüße

Translation: Atlas came out again from its position after both treatments, after 5 days the first time and after 2 the second. I can confidently pinpoint the moments because I'm used to listening to my body. My Atlantomed therapist confirmed it came out the first time, and my osteopath did so the second time. During the treatment, I felt Atlas go back in, so the maneuver worked. I don't know why it doesn't stay in place; the osteopath suggested that the deviation might be an adaptive postural one, and therefore, the body brings it out as a correction that he believes is necessary (due to other imbalances, which are not well identified). I hope my experience can be useful as a "record," perhaps to better understand this fundamental part of our body.				
Original: Atlante è uscito nuovamente dalla sua sede dopo entrambi i trattamenti, dopo 5 giorni la prima volta e dopo 2 la seconda. Posso dire con sicurezza i momenti, perché sono abituata ad ascoltare il mio corpo. Il mio terapeuta Atlantomed ha confermato l'uscita la prima volta e il mio osteopata l'ha fatto la seconda. Durante il trattamento ho sentito Atlante rientrare, quindi come manovra ha funzionato. Non so perché non resti in sede, l'osteopata ha ipotizzato che la deviazione sia posturale di adattamento e, perciò, il corpo lo riporta fuori come correzione secondo lui necessaria (a fronte di altri disequilibri, comunque non bene identificati). Vorrei che la mia esperienza fosse utile come "storico", magari per comprendere sempre meglio questa fondamentale parte del nostro corpo.

 Translation: Due to my temperament and high pain tolerance, I let the therapist push hard on the treatment; in reality, I should have told her to ease up a bit. In fact, compared to the first session which was surprising, now in this second follow-up session, I don't feel completely balanced and have discomfort in my neck with pain. But it's most likely due to my right shoulder where I have a torn supraspinatus tendon and need to have surgery. The therapist also performed a treatment on the shoulder to help relieve the discomfort, but the situation actually worsened. I had already considered an appointment for a check-up, but I'm not sure if I will be able to make it; it all depends on when the shoulder surgery will be performed. I would like to thank you anyway for the professionalism and hospitality.				
 Original: Dovuto al mio temperamento e all'alta sopportazione del dolore da parte mia, ho lasciato che la terapeuta spingesse a fondo sul trattamento, in realtà avrei dovuto dirle di allentare un po'. Infatti rispetto al 1mo incontro che è stato sorprendente, ora in questo 2do incontro di controllo non mi sento del tutto in equilibrio ho fastidio al collo con dolori. Ma molto probabile è dovuto alla mia spalla destra dove mi trovo con il tendine del sovraspinato rotto e devo essere operato, la terapeuta a eseguito un trattamento anche sulla spalla per aiutarmi ad alleviare il fastidio, in realtà si è peggiorata la situazione. Avevo già preso in considerazione un appuntamento per un controllo ma non so se riuscirò a raggiungervi, tutto dipende da quando verrà eseguita l'intervento alla spalla. Vorrei ringraziare comunque per la professionalità e l'accoglienza.

 Translation: I am very satisfied with the Atlantomed treatment, immediately I no longer had discomfort in the lumbar area, even if rare, but above all, I resolved the headaches upon waking in the frontal area due to the cervical support on the pillow. Even the slight dizziness has definitely improved. Translation: The first treatment was really difficult, in my opinion, the therapist was excellent, she worked a lot. I experienced benefits after a week because the area was 'mistreated', and I was all sore. I believe it would have been appropriate to rest after the treatment: work, the repetitive movements I do, in my opinion, compromised the positive outcome of the alignment. Thank you all because you have lit a small light of hope in my healing journey. Original: Il 1° trattamento è stato veramente difficile, a mio parere, la terapeuta è stata bravissima., ha lavorato molto . Io ho avuto benefici dopo una settimana perché la parte era 'maltrattata', ed ero tutta indolenzita. Credo sarebbe stato opportuno stare a riposo dopo il trattamento: il lavoro, i movimenti ripetitivi che faccio, secondo me, hanno compromesso l'esito positivo dell'allineamento. Grazie a voi tt perché avete acceso un lumicino di speranza nel mio percorso di guarigione.

 **Translation:** The therapist took a lot of time, more than planned (about 2.5 hours). He also addressed other physical issues and first checked whether the correction was even permissible. He explained everything very well and was very friendly. The correction did not hurt, and he was cautious with complaints like dizziness during the massage. The therapist is highly commendable and one of the few who is genuinely humane. The practice is a bit gloomy (seems somewhat spiritual, though I can't say for sure), but the treatment room is perfectly fine. The aftereffects of the atlas correction were very severe for me. It escalated over a month until there were a few days when I thought I had heart and nerve issues, a day when the emergency services had to come, and then more days when my body noticeably changed. I had experienced such strange "attacks" before, which is why I had the correction done, but never this severe. Since then, however, I haven't had anything, which I am truly happy about. My body also feels different, and my hip has apparently become straight. The therapist checked in after the correction to see if everything was okay and offered to answer questions and provide help. A few family members had it done with him as well and were very satisfied, although everyone had an atlas misalignment, some more severe than others.

 **Original:** Der Therapeut hat sich sehr viel Zeit genommen, mehr als eingeplant war (ca. 2,5 Stunden). Er ist auch auf andere körperliche Probleme eingegangen und hat erstmal geschaut ob man die Korrektur überhaupt durchführen darf. Er hat immer alles super erklärt und war sehr freundlich. Die Korrektur hat nicht weh getan, auf Beschwerden wie Schwindel bei der Massage ist er darauf eingegangen und war vorsichtig. Der Therapeut ist sehr zu loben und noch einer der wenigen der menschlich ist. Praxis ist ein wenig düster (scheint etwas spirituell, ob es wirklich so ist kann ich nicht sagen), Behandlungsraum voll in Ordnung. Die Nachwirkungen der Atlas Korrektur waren bei mir sehr schlimm. Es hat sich einen Monat hochgeschaukelt, bis es paar Tage gab an denen ich dachte ich bin Herz und Nerven krank, einen Tag an dem der Rettungsdienst kommen musste und dann noch Tage an denen sich mein Körper spürlich verändert hat. Ich hatte zuvor schonmal solche komischen "Anfälle", weswegen ich die Korrektur machen lies, aber noch nie sooo schlimm. Seither habe ich aber gar nichts mehr, worüber ich wirklich glücklich bin. Mein Körper fühlt sich auch anders an, meine Hüfte ist wohl auch gerade geworden. Der Therapeut hat sich nach der Korrektur erkundet, ob alles in Ordnung sei und sich für Rückfragen und Hilfe bereit erklärt. Ein paar aus der Familie hatten es bei ihm auch machen lassen und waren auch sehr zufrieden, jedoch hatte jeder eine Atlasverschiebung, der eine stärker, der andere weniger.

Translation: I was initially skeptical, perhaps also accompanied by fear, but then I decided to undergo this Atlas correction. That was a very good decision! After my cervical spine surgery, I had many difficulties. Pain, dizziness, numbness, etc., were part of my everyday life. I can only recommend this treatment to everyone. Mr. Braun is extremely knowledgeable in this field and always has an open ear. My symptoms have been gradually resolving since this treatment. The effect was not immediately noticeable for me, and there was also an initial aggravation. But now I feel better every day. A big "thank you" to Mr. Braun (Andreas), who has helped me regain a better quality of life.				
Original: Ich war erst skeptisch, vielleicht auch mit Angst verbunden, habe mich aber dann entschlossen diese Atlas-Korrektur zu machen. Das war eine sehr gute Entscheidung! Hatte nach meiner HWS-OP viele Schwierigkeiten. Schmerzen, Schwindel, Taubheitsgefühle usw. begleiteten meinen Alltag. Ich kann diese Behandlung nur jedem ans Herz legen. Herr Braun kennt sich auf diesem Gebiet hervorragend aus, dazu hat er immer ein offenes Ohr. Meine Beschwerden lösen sich seit dieser Behandlung immer mehr auf. Der Effekt war bei mir nicht sofort spürbar und es gab auch eine Erstverschlimmerung. Aber jetzt geht es mir jeden Tag besser. Großes „Dankeschön“ an Herrn Braun (Andreas), der mir wieder zu mehr Lebensqualität verholfen hat.

Translation: Hello Mr. Kraft, sorry for the late response. But the last 5 weeks have not been good for me health-wise. I was in bed with a high fever, 39 degrees, from August 28th for a week and kept getting weaker. After my doctor's suggestion to treat with ibuprofen and paracetamol didn't help, I went to the practice on September 4th, including a blood test, and on the morning of September 5th, I got the call to go to the hospital immediately. Viral infection with acute kidney failure. I was on a drip with antibiotics, etc., for a week, and I'm still fighting to regain full strength. It is quite better, but I'm not yet at 100%. Regarding your treatment, I was very satisfied again and am glad I chose this step. I still feel good about this. Thank you for your good treatment. I have also warmly recommended you to my niece Patricia Pflanz, as she has been struggling with severe headaches and migraines for years. She would like to introduce herself to you now. I wish you all the best and remain with kind regards, Heidi Popp. Original: Hallo Herr Kraft, sorry für die späte Rückmeldung. Aber bei mir lief es die letzten 5 Wochen gesundheitl. nicht gut. Ich lag vom 28.8. 1 Woche mit hohem Fieber, 39 Grad, im Bett und wurde immer schwächer. Nachdem der Vorschlag meines arztes mit Ibu und Paracetamol zu behandeln nix brachte, war ich dann am 4.9. in der Praxis inkl. Blutabnahme und am 5.9. früh bekam ich den Anruf sofort ins Kr.h.s. Virusinfekt mit akutem Nierenversagen. Dort lag ich dann 1 Woche am Tropf mit Antibiotika usw, bis heute kämpfe ich das ich wieder voll zu Kräften komme. Es ist zwar recht besser aber 100 % habe ich noch nicht. Ihre Behandlung betreffend war ich wieder sehr zufrieden und bin froh diesen Schritt gewählt zu haben. Ich fühle mich was dies betrifft nach wie vor gut. Vielen Dank für Ihre gute Behandlung. Habe Sie auch meiner Nichte Patricia Pflanz wärmstens empfohlen, da sie seit Jahren mit starken Kopfschmerzen, Migräne kämpft. Sie möchte sich jetzt bei Ihnen vorstellen. Ich wünsche Ihnen alles gute und verbleibe mit freundl. Grüßen Heidi *****

Translation: The treatment with Dr. Grussendorf was very professional. She advised me very well and holistically. I have been suffering from daily neck and headaches since a fall 6 years ago. After the treatment, I felt a great relief, as if my head had become 3 kg lighter. Unfortunately, this effect faded again after 5-6 days. After years of searching, only this method has brought an improvement for a limited time so far. Dr. Grussendorf has been very supportive in searching for solutions for my situation - thank you very much! Original: Die Behandlung bei Frau Dr. Grussendorf war sehr professionell. Sie hat mich sehr gut und ganzheitlich beraten. Ich leide seit einem Sturz vor 6 Jahren unter täglichen Nacken- und Kopfschmerzen. Nach jahrelangem Suchen hat bis jetzt nur diese Methode eine Verbesserung für eine begrenzte Zeit gebracht.  Translation: The method is really great. After watching the videos, I definitely wanted to try it. Physiotherapy only provided short-term relief, but the atlas correction went really deep and resolved the extreme deep tensions that had developed on the right side due to an accident. The treatment solved three problems for me: the deep tensions, the atlas, and the cervical vertebrae. Before, there was crunching and cracking with every head movement, simply terrible. The treatment helped me a lot. Of course, the body needs time after the treatment, but I already felt much better after the first one. I was looking forward to the second one, and I needed it too, and since then the problems are gone. Thank you that this treatment method exists, I have benefited greatly from it.  Original: Die Methode ist wirklich Klasse. Nachdem ich die Videos geschaut habe, wollte ich das unbedingt. Physiotherapie brachte nur kurzzeitig Abhilfe, aber die Atlaskorrektur ging richtig in die Tiefe und löste die extremen tiefen Verspannungen, die durch einen Unfall rechtsseitig entstanden waren. Die Behandlung hat bei mir drei Probleme gelöst, die tiefen Verspannungen, den Atlas und die Halswirbel. Vorher knirschte und knackte es bei jeder Kopfbewegung, einfach grausam. Mir hat die Behandlung sehr geholfen. Natürlich brauch der Körper Zeit nach der Behandlung, aber bereits nach der ersten ging es mir viel besser. Auf die zweite freute ich mich schon und ich brauchte sie auch und seitdem sind die Probleme weg. Danke,, das es diese Behandlungsmethode gibt, ich habe sehr davon profitiert.

 Translation: The therapy has worked very well. I already felt an improvement after the first treatment. Although the symptoms occasionally reappeared, they were always in a milder form. After 4 months, I visited my therapist again because the issues weren't completely resolved. After this treatment (the 2nd vertebra was also treated), I felt increasingly better. After nearly 6 months, I can say that the atlas correction has helped me greatly with my issues. I am almost symptom-free. I can only recommend the treatment. Finally, normality again after a long time.  Original: Die Therapie hat sehr gut angeschlagen. Ich habe bereits nach der ersten Behandlung eine Verbesserung verspürt. Es kam zwar immer mal wieder vor, dass sich die Symptome gezeigt haben, aber immer in abgeschwächter Form. Nach 4 Monaten habe ich meinen Therapeuten nochmals aufgesucht, da die Beschwerden nicht ganz therapiert waren. Nach dieser Behandlung (2. Wirbel wurde mit behandelt) ging es mir immer besser. Nach knapp 6 Monaten kann ich sagen, dass die Atlaskorrektur mir bei meinen Beschwerden sehr geholfen hat. Ich bin nahezu Beschwerdefrei. Ich kann die Behandlung nur empfehlen. Translation: I can only report good things. I noticed immediately after the treatment that my neck mobility was back and there was no more grinding during rotational movements. All other ailments, such as dizziness, tinnitus, vision problems, neck-shoulder-back pain, etc., have not completely disappeared but have already improved significantly. One should not expect a miraculous recovery after months or years of poor posture. It truly gets better week by week. But even if not all of my complaints should disappear (some may also come from my cervical spine), I know that the atlas is now sitting where it belongs. These treatments (I also had the second session) have already helped and provided relief more than all the doctors and therapists I have seen in recent months. I can only highly recommend the therapist Cem and the practice in Vilbel, it was top-notch... Original: Ich kann nur Gutes berichten. Ich habe direkt nach der Behandlung gemerkt, dass meine Kopfbeweglichkeit wieder vorhanden ist und es bei Drehbewegungen nicht mehr knirscht. Alle anderen Wehwehchen, wie z.B. Schwindel, Ohrensausen, Sehstörungen, Nacken-Schulter-Rückenschmerzen usw. sind noch nicht alle komplett verschwunden aber schon sehr viel besser geworden. Man sollte nach monate oder jahrelanger Fehlhaltung, keine Blitzgenesung erwarten. Es wird wirklich von Woche zu Woche besser. Aber auch selbst wenn nicht alle meine Beschwerden verschwinden sollten (können auch teilweise von meiner HWS kommen) weiß ich das der Atlas jetzt wieder da sitzt wo er hingehört. Es wurde mir durch diese Behandlungen (habe auch die zweite Sitzung gemacht) jetzt schon mehr geholfen und Linderung geschafft, wie bei allen Ärzten und Therapeuten bei denen ich in den letzten Monaten gewesen bin. Translation: No substantial results, unfortunately, the cervical issue has worsened significantly after the treatment, the lumbar pain has remained constant, no change in the tinnitus, visual disturbance further accentuated in the trembling of vision although eye exams say the eyes are fine. There is probably another triggering cause not related to the Atlas that I need to try to identify. Original: Nessun risultato sostanziale, purtroppo il problema cervicale è peggiorato ulteriormente in modo marcato dopo il trattamento, è rimasto costante il dolore alla lombare, nessun cambiamento all'acufene, disturbo visivo ulteriormente accentuato nel tremolio della visione benché le visite oculistiche dicono che gli occhi sono a posto. Probabilmente c'è altra causa scatenante non dovuta all'Atlante che devo cercare d'individuare.

Translation: I came for a problem related to the vagus nerve, chronic pain behind the head on the left, in the larynx, and pain related to my digestive system and a depressive state mainly. The results obtained: In the first session, I arrived in a state of significant pain and stress. Following the correction of the atlas, the pain disappeared in the next second, leaving me very unsettled. I immediately felt that I was breathing more easily. A joy settled within me, my posture changed. Whereas before I was in my protective bubble because of the pain, I went down to the street and things seemed very different to me, light, I found myself smiling and with a surge of energy. When my husband came to pick me up at the airport, he was impressed by my posture; I was walking straight with my head held high, whereas before I was hunched over and twisted. On the digestive level, great relief of the stomach first, improvement of the digestive system as a whole. In the days that followed: • Ear, shoulder, rib, arm pain related to the vagus nerve disappeared. • I breathe better, more easily • Hallux valgus decreased, finally disappearing today, • A lot of restlessness at night during the first days (muscular accommodation) • Nose running abundantly (first 15 days and then some days) • The very painful points of the spine turned into pulling sensations, gradually I am gaining flexibility even with the pulling. • My teeth moved a lot, I have a device in my lower mouth; provisional modifications had to be made. I need to redo the dental device, I made plastic supports in the meantime, and I see that my masseter muscles are rebalancing. My mouth opens better in the axis instead of being zigzag. • A lot of changes in the muscles Original: Je suis venue pour un problème lié au nerf vague, une douleur chronique derrière la tête à gauche, au larynx et des douleurs liées à mon système digestif et un état dépressif pour l'essentiel. Les résultats obtenus : 1ère séance je suis arrivée dans un état de douleur et de stress très important Suite à la correction de l'atlante dans la seconde qui a suivi la douleur a disparue, si bien que j'en ai été très déstabilisée. J'ai tout de suite senti que je respirais plus facilement. Une joie c'est installé en moi, ma statique a changé. Alors qu'avant j'étais dans ma bulle de protection à cause de la douleur, Je suis descendu dans la rue et les choses me paraissent bien différentes, légère, je me suis surprise souriante et avec un regain d'énergie. Lorsque m'ont mari est venu me chercher à l'aéroport, il a été impressionné de ma statique, je marchais droit la tête haute, alors que j'étais repliée sur moi-même et vrillée. Sur le plan digestif, grand soulagement de l'estomac en premier, amélioration du système digestif dans son ensemble. Sur le jour qui ont suivis : • Douleur oreille, épaule, côte, bras lié au nerf vague disparus. • Je respire mieux plus facilement • Hallux valgus diminue, pour *****n disparaître aujourd'hui, • Beaucoup d'agitation la nuit des premiers jours (accommodation musculaire) • Nez qui coule abondamment (15 premiers jours puis ensuite certains jours) • Les points de la colonne vertébrale très douloureux se sont transformés en tiraillement, peu à peu je gagne en souplesse même avec les tiraillements. • Mes dents ont fortement bougé, j'ai un appareil dans la bouche en bas ; il fallut faire des modifications provisoires. Il me faut refaire l'appareil dentaire, je me suis faite des cales en plastique en attendant et je vois que mes muscles masséters se rééquilibrent. Mon ouverture de la bouche se fait mieux dans l'axe au lieu d'être en zigzag. • Beaucoup de changement au niveau des muscles

Translation: For 14 years, I was treated for cluster headaches. I took many things into my own hands to regain quality in my life. Sure, there were breaks in between. But nothing really helped. It was always just numbed. Through acquaintances, I came across Atlantomed. At first, I waved it off. Only when the acquaintance told me that she was feeling significantly better did I make an appointment with Mrs. Klappstein-Bode. Both appointments were conducted very competently. The treatment was thoroughly explained and carried out initially. I have been pain-free since 05/15/23! Not a single pill, not a single injection. No signs that had actually become a habit. These words speak for themselves. I can only recommend this treatment to everyone. I would consider it again. Full marks for a great treatment.				
Original: 14 Jahre wurde ich wegen Clusterkopfschmerzen behandelt. Ich habe viele eigene Dinge selbst in die Hand genommen, um meinem Leben wieder Qualität zu geben. Sicher waren dann mal Pausen dazwischen. Doch wirklich geholfen hat nichts. Es wurde immer nur betäubt. Durch Bekannte bin auf Atlantomed gekommen. Anfangs habe ich abgewunken. Erst als die Bekannte mir erzählte, das es ihr wesentlich besser ginge habe ich mir einen Termin bei Frau Klappstein-Bode geholt. Beide Termine waren sehr kompetent durchgeführt. Die Behandlung wurde anfangs ausgiebig erklärt und durchgeführt. Ich bin seit dem 15.05.23 schmerzfrei! Nicht eine Tablette, nicht eine Spritze. Keinerlei Anzeichen, die eigentlich schon Gewohnheit waren.Diese Worte sind selbsterklärend. Ich kann diese Behandlung nur jedem empfehlen. Ich würde es auch ein weiteres Mal in Betracht ziehen. Translation: You have opened up a new and fabulous world for me, you are unique. I did not expect such a drastic change with one session, and then the follow-up session further amplified the benefits of the first. I waited a bit to respond because I wanted more time to evaluate the results. I will recommend your center whenever I have the chance. In sharing my experience with Atlantomed, I realized that many people are unaware of the physical imbalances that can be caused by a misaligned atlas, in addition to a psycho-physical malaise that can be very debilitating in some cases. Someone responded to me: but if this therapy is so miraculous, why isn't it more publicized given the results? Bye

 Original: Mi avete aperto un mondo nuovo e favoloso, siete unici. Non mi aspettavo un cambiamento così netto con una seduta e poi, la secondadi controllo, ha amplificato ancora i benefici della prima. Ho atteso un pó nel rispondervi perché volevo avere ancora più tempo per la valutazione dei risultati. Consiglierò il vostro centro ogni volta che avrò modo. Nel raccontare la mia esperienza con Atlantomed, mi sono reso conto che tanta gente non è consapevole degli scompensi a livello fisico e che può dare l'atlante non allineato oltre che a un malessere psico- fisico in alcuni casi molto debilitante. Qualcuno mi ha risposto: ma se questa terapia è così miracolosa perché non è così pubblicizzata visti i risultati? Ciao

 Translation: Thanks to this treatment done with great professionalism, I am already feeling better and I am convinced that my body has begun the self-repair process that was previously blocked because the Atlas was not in place, so far every other treatment was almost in vain, providing only slight and temporary relief. In the meantime, the fact that I'm no longer dizzy and don't have constant pain is a significant breakthrough. I will complete this treatment with further deep massages every 4-6 months and with postural gymnastics for a more complete recovery. Thank you very much indeed, and I hope you can help many others like me. Thank you.				
 Original: Grazie a questo trattamento fatto con molta professionalità sto già meglio e sono convinta che il mio organismo ha cominciato l'autoriparazione che finora era bloccato dal fatto che l'Atlante non era in sede, quindi finora ogni altro trattamento era quasi in vano, era solo un sollievo lieve e temporaneo. Intanto già il fatto che non mi gira la testa e non ho dolori continuamente è una svolta importante. Completerò questo trattamento con ulteriori massaggi profondi ogni 4-6 mesi e con ginnastica posturale per una guarigione più completa. Grazie mille veramente e spero che riuscirete aiutare tanti altri come me. Grazie

Translation: Unfortunately, the treatment did not resolve any of my problems. Unfortunately, since the treatment, I have developed new, far worse, pains in the neck area (at the treatment site), which have not improved even after the second treatment. Now I can only hope that it will get better at some point. It was worth a try, but I regret the step. Original: Die Behandlung hat leider keines meiner Probleme behoben. Leider habe ich seit der Behandlung neue, weitaus schlimmere, Schmerzen im Nackenbereich (an der Behandlungsstelle) bekommen, die auch nach der zweiten Behandlung nicht mehr besser geworden sind. Translation: In the first two and a half months post-treatment, I felt terrible: nausea, Meniere's crises, mental confusion. Today I'm better but not yet well. I'm not sure that the treatment has provided the expected benefits. I'm taking medications prescribed by a neurologist and supplements prescribed by the vascular surgeon who operated on me for PTA in 2016. I don't know if the fact that I'm feeling a bit better is due to the medications or the treatment you performed. I will know for sure when I stop taking the medications. Original: Nei primi due mesi e mezzo post trattamento sono stata malissimo: nausea, crisi menieriche, confusione mentale. Oggi sto meglio ma non ancora bene. Non sono certa che il trattamento abbia dato i benefici sperati. Sto assumendo dei farmaci prescritti da un neurologo e degli integratori prescritti dall'angiocirurgo che nel 2016 mi ha operato di PTA. Non so se il fatto che stia un po' meglio è dovuto ai farmaci o al trattamento da voi eseguito. Lo saprò con certezza quando smetterò di prendere i farmaci.

Translation: First of all, thanks to Daniela Zink. Great therapist! My migraine hasn't completely disappeared, but it has improved enormously. I used to have up to 11 attacks a month. Currently, the average is about 3-4, which is huge for me. I've tried quite a lot over the past years (25 years), and in the end, nothing really helped. I'm glad a good friend made me aware of this treatment method and I would recommend it at any time. Many thanks. Original: Erstmal einen Dank an ***** Zink. Tolle Therapeutin! Meine Migräne ist zwar nicht ganz verschwunden, aber hat sich enorm verbessert. Ich hatte im Monat immer bis zu 11 Anfälle. Derzeit liegt der Durchschnitt bei ca.3-4 , dass ist für mich enorm. Ich habe in den letzten Jahren (25 Jahre) ziemlich viel ausprobiert, geholfen hat im Endeffekt gar nichts. Bin froh, dass mich eine gute Freundin auf diese Behandlungsmethode aufmerksam gemacht hat und würde Sie jederzeit weiterempfehlen. Vielen Dank

🇬🇧 Translation: I am very glad that in East Germany there is also this Atlas correction therapy. The practice is very conveniently located and can be easily found on foot or by car. The therapist works very professionally and patiently. Since 2007, after a car accident, I have had many health problems because my atlas was in the wrong position. Now I feel better. I have gained strength and good sleep in peace. The body is still adjusting, but I feel super good. I continue to tell my friends and acquaintances about this opportunity to restore health. Many thanks from the bottom of my heart. Larisa

 Translation: Therapist Davide immediately made me feel at ease. The explanations both before and during the treatment were clear. In my case, the result was astonishing; I haven't had a migraine attack, and it's been over 3 months since the treatment (with high stress and work rhythms...)!  Original: Il terapeuta Davide ha saputo subito mettermi a mio agio. Le spiegazioni sia prima che durante il trattamento erano chiare. Il risultato nel mio caso è stato sbalorditivo, non ho più avuto un attacco di emicrania e sono passati più di 3 mesi dal trattamento (con stress e ritmi di lavoro alti...)!

Translation: Already after the first session, my tension in the neck and throat noticeably decreased after just one day. The migraine also occurred only once since the second session but was significantly lighter than usual. Overall, it is a great, new body feeling for me. I am glad that I underwent the treatment. Frank is a super nice therapist. You feel in safe hands because he knows what he is doing. Thank you very much for your help!				
Original: Schon nach der ersten Sitzung sind meine Verspannungen im Nacken und Hals nach nur einem Tag spürbar zurück gegangen. Auch die Migräne ist seit der 2. Translation: Very good organization, punctual treatment according to schedule. H. Straub took a lot of time to record the symptoms and explain the treatment. The therapist conveyed a great deal of competence and a feeling of being in good hands. The treatment was very pleasant at first, but the actual atlas correction was also somewhat painful. Due to his experience, H. Straub found a good balance between atlas correction and repeatedly checking the previous results, thus providing a breather for the patient. The positive result was immediately noticeable and visible. In the first 3 months, the following changes occurred for me: significantly less fatigue, jaw pain and clicking of the jaw joints almost completely gone, unilateral nasal congestion also almost gone, headaches and migraines reduced by about 50 - 70%. I am very glad that I went through with the treatment after hesitating for a long time. I would do it again.				
Original: Sehr gute Organisation, pünktliche Behandlung gem. Termi. H. Straub nahm sich viel Zeit, das Beschwerdebild aufzunehmen und die Behandlung zu erläutern. Dabei vermittelte der Therapeut viel Kompetenz und ein Gefühl des gut aufgehoben seins. Die Behandlung war anfangs sehr angenehm, die eigentliche Atlaskorrektur aber auch etwas schmerzhaft. Durch seine Erfahrung fand H. Straub eine gute Balance zwischen Atlaskorrektur und immer wieder Kontrolle des bisherigen Ergebnisses und damit auch verschaffen einer Verschnaufpause für den Patienten. Das positive Ergebnis war sofort spürbar und sichtbar. Bei mir veränderte sich in den ersten 3 Monaten folgendes: deutlich weniger Müdigkeit, Kieferschmerzen und Knacksen der Kiefergelenke fast vollständig weg, Nasenverstopfung einseitig auch fast weg, Kopfschmerzen und Migräne um ca. 50 - 70 % reduziert. Bin sehr froh, daß ich die Behandlung nach längerem Zögern gemacht habe. Würde es wieder tun.

Translation: The treatment went well and was promising. After the first treatment, I immediately got a migraine, stomach ache, and extreme nausea. These symptoms lasted about 2 hours. In the following days, I repeatedly had head pressure. After 6 weeks, I had my second treatment and since then my pain has changed. The migraine I used to have is no longer the same but much weaker and in a different, milder form. The great thing is that I don't have to take painkillers as often. Something has definitely changed and improved for me. Original: Die Behandlung verlief gut und erwartungsvoll. Nach der ersten Behandlung bekam ich direkt Migräne, Bauchschmerzen und extreme Übelkeit. Diese Symptome blieben ca. 2 Stunden an. Die folgenden Tage hatte ich immer wieder Kopfdruk. Translation: Mr. Gorgulla/Koblenz really took his time with me. Both during the medical history and the treatments. The second time, he also took a lot of time for my child. I felt very well taken care of by him, my complaints (right shoulder impingement and additionally a very stiff, movement-restricted neck) were significantly better on-site after the first treatment (neck) and this improvement persisted and continued to get better. I had regularly stretched the shoulder according to Liebscher and Bracht, and the mobility improved more and more. Looking back, I am glad I made the long journey. I was also impressed by the before-and-after pictures. It is truly impressive what the method and Mr. Gorgulla's additional work could sustainably achieve in such a short time. I can highly recommend him, especially regarding communication speed.

 Original: Herr Gorgulla/ ***** hat sich wirklich Zeit für mich genommen. Sowohl in der Anamnese als auch in den Behandlungen. Beim zweiten Mal hat er sich auch sehr viel Zeit für mein Kind genommen. Ich habe mich bei ihm sehr gut aufgehoben gefühlt, meine Beschwerden (Impingement rechte Schulter und zusätzlich steifer stark bewegungseingeschränkter Nacken) waren schon nach der ersten Behandlung vor Ort deutlich besser (Nacken) und das hielt auch an und verbesserte sich auch weiter. Die Schulter hatte ich nach Liebscher und Bracht regelmäßig gedehnt und auch da besserte sich die Beweglichkeit immer mehr. Rückblickend bin ich froh, den weiten Weg auf mich genommen zu haben. Beeindruckt haben mich auch die Vorher- Nachher-Bilder. Es ist wirklich eindrucksvoll, was die Methode und die zusätzliche Arbeit von Herrn Gorgulla in so kurzer Zeit nachhaltig bewirken konnte. Ich kann ihn ausdrücklich weiterempfehlen, auch was die Kommunikationsschnelligkeit angeht.

Translation: Good morning, I had been anosmic for many years with my sense of smell coming and going, after the first treatment the first thing I noticed was its return. Another improvement was the issues with cervical pain and dizziness upon waking with nausea, always due to cervical issues, and as time goes by, things keep getting better, as Tamara had anticipated. Even the lumbar problems have improved. I don't expect miracles, but at least the quality of life has improved regarding the physical pains that had become chronic. Original: Buongiorno, io ero anosmico da molti anni con l'olfatto che andava e veniva, dopo il primo trattamento la prima cosa che ho constatato è il ritorno del medesimo, un'altro miglioramento sono stati i problemi di dolori cervicali e giramenti di testa al risveglio con nausea sempre dovuti alla cervicale e man mano che passa il tempo le cose vanno sempre migliorando, come mi era stato anticipato da Tamara, e anche i problemi lombari sono migliorati, non mi aspetto miracoli ma almeno la qualità della vita è migliorata per quello che riguarda i dolori fisici che ormai erano cronici.

 Translation: Thank you very much for the treatment and successfully performed atlas correction. Up until that point, I suffered from "latent" swaying dizziness. In early 2021, I experienced an acute vertigo attack "spinning vertigo" (nystagmus) and was taken to the hospital by ambulance; since then, I suffered, among other things, from the "latent" swaying dizziness. Until the atlas correction was performed, I also had regular vertigo attacks with spinning vertigo. No doctor, therapist, or any treatment could completely and permanently reduce the constant (latent) swaying dizziness, and there were no medical diagnoses or other statements. I myself could not identify any connection between the occurring dizziness attacks and my own experiences, e.g., doing this or that the day before. Except that the cervical spine was repeatedly associated as a possible cause. From a naturopath who had an almost identical medical history to mine, I learned about Atlantomed and that this treatment had completely resolved his dizziness symptoms. Immediately after the atlas correction was performed on me, my constant (latent) swaying dizziness was suddenly no longer present, and I could move my head as freely as I hadn't remembered being able to for many years. Even after more than 4 months, the latent swaying dizziness is no longer present, a completely new feeling of life. I can now associate any remaining "light" dizziness attacks with experiences from the day before. I thank Mr. Straub for his empathetic treatment. My conclusion today: Due to many "stress factors," my body had effectively shut down; possibly, the atlas shift came from a skiing accident involving my head 11 years ago... and only this treatment has "really" helped me move forward. Now I can truly address my psychosomatic issues. :-)

 Original: Vielen Dank für die Behandlung und erfolgreich durchgeführte Atlaskorrektur. Bis zu diesem Zeitpunkt litt ich unter einem "latenten" Schwankschwindel. Anfang 2021 erlitt ich einen akuten Schwindelanfall "Drehschwindel" (Nystagmus) und wurde mit dem Krankenwagen ins Krankenhaus eingeliefert, seitdem litt ich unter anderem unter dem "latenten" Schwankschwindel. Bis zur durchgeführten Atlaskorrektur hatte ich zusätzlich regelmäßige Schwindelanfälle mit Drehschwindel. Kein Arzt, Therapeut oder irgendeine Behandlung konnte den ständigen (latenten) Schwankschwindel vollkommen und dauerhaft reduzieren, es lagen auch keinerlei med. Diagnosen oder sonst. Aussagen vor. Ich selbst konnte keinerlei Zusammenhang mit den auftretenden Schwindelattacken und eigenen Erlebnissen identifizieren, z.B. am Vortag dies oder das gemacht. Außer dass immer wieder die HWS als eine mögliche Ursache damit in Verbindung gebracht worden ist. Von einem Heilpraktiker, der in seiner Biografie einen fast identischen Krankheitsverlauf wie ich hatte erfuhr ich über Atlantomed und dass diese Behandlung seine Schwindelsymptome vollständig behoben hat. Direkt nach der bei mir durchgeführten Atlaskorrektur war mein ständiger (latenter) Schwankschwindel schlagartig nicht mehr vorhanden, zusätzlich konnte ich meinen Kopf so frei bewegen wie ich das seit vielen Jahren nicht mehr in Erinnerung hatte. Auch nach über 4 Monaten ist der latente Schwankschwindel nicht mehr vorhanden, ein ganz neues Lebensgefühl. Noch auftretende "leichte" Schwindelanfälle kann ich jetzt Erlebnissen des Vortags zuordnen. Ich danke Herrn Straub für seine einfühlsame Behandlung. Mein heutiges Fazit: Aufgrund vieler "Stressfaktoren" hat ich mein Körper regelrecht ausgeschaltet, evtl. kam die Atlasverschiebung von einem Skiunfall mit Kopfbeteiligung vor 11 Jahren ... und, nur diese Behandlung hat mir "wirklich" weitergeholfen. Jetzt kann ich mich meinen psychosomatischen Themen wirklich widmen. :-)

 Translation: I underwent atlas correction because I have been suffering from persistent and almost constant dizziness directly since my thyroid surgery. My atlas was corrected, but apparently shifted back to its old position after the first treatment in Uetze. A second treatment followed, but still no significant change was noticeable. A third treatment followed, during which the atlas was only slightly adjusted this time, as it was said to be almost perfectly positioned. Now, 6 weeks after the third treatment, I unfortunately still suffer from the mentioned symptoms, although not as extreme as before. Probably the atlas vertebra was not the cause of my symptoms, as I have read many positive experiences about atlas correction and decided on this treatment for that reason.				
 Original: Ich habe mich der Atlaskorrektur unterzogen, weil ich direkt seit meiner Schilddrüsen OP unter einer anhaltenden und fast ständigen Benommenheit leide. Mein Atlas wurde korrigiert, hat sich wohl aber nach der 1. Behandlung in Uetze wieder an die alte Position zurück verschoben. 2. Behandlung folgte, aber weiterhin keine große Veränderung zu spüren. 3. Behandlung folgte, wobei der Atlas dieses Mal nur noch ganz leicht ausgerichtet worden ist, weil dieser noch fast perfekt gesessen haben soll. Nun 6 Wochen nach der 3. Behandlung leide ich leider immer noch an den genannten Beschwerden, wenn auch derzeit nicht mehr ganz so extrem. Wahrscheinlich war der Atlaswirbel bei mir nicht die Ursache für meine Beschwerden, denn ich habe wirklich viele positive Erfahrungen zur Atlaskorrektur gelesen und habe mich auch deshalb zu dieser Behandlung entschieden.

I'm slowly starting to really believe that the correction has something to do with it. I haven't had a headache for 3 months, unbelievable. Thank you very much. Original: Ich bin hauptsächlich wegen Kopfschmerzen erschienen. Waren wöchentlich vorhanden. Seit der Atlas Korrektur sind Sie nicht mehr aufgetreten. So langsam glaube ich wirklich, daß die Korrektur etwas damit zu tun hat. Ich habe seit 3 Monaten keine Kopfschmerzen mehr, unglaublich. Vielen Dank.

 Translation: Unfortunately, after 3 months, nothing significant has changed regarding the pain. During the second appointment, C2 was also supposed to be corrected. I had high hopes for that. Unfortunately, so far without success. The only change so far is that the main pain area has moved slightly from the right ear towards the neck. I experienced an initial worsening for two weeks. Then the pain settled back to the previous level. I found Mr. Gorgulla to be a nice therapist who answered my questions thoroughly, even by email. Perhaps I just need a little more time for improvements to occur.				
 Original: Leider hat sich nach 3 Monaten nichts wesentlich, bezüglich der Schmerzen verändert. Bei dem zweiten Termin sollte auch C2 korrigiert werden. Davon hatte ich mir viel erhofft. Leider bisher auch ohne Erfolg. Einzige Veränderung bisher ist, dass der Hauptschmerzort vom rechten Ohr etwas weiter Richtung Nacken gewandert ist. Eine Erstverschlimmerung hatte ich für zwei Wochen. Dann haben sich die Schmerzen wieder auf dem alten Niveau eingependelt. Herr Gorgulla habe ich als netten Therapeuten erlebt, der mir meine Fragen ausführlich, auch per Mail, beantwortet hat. Vielleicht brauche ich auch etwas mehr Zeit, bis sich Verbesserungen einstellen.

Translation: Treatment for severe tinnitus. There was indeed a reaction, but not the hoped-for one. Previously, my perception of the tinnitus fluctuated on a scale from 1 (weak) to 10 (unbearable) between 3 and 7. Since the treatment, it has become rather flat and, unfortunately, with levels 4-6, not less burdensome. Since there was at least a reaction, I am optimistic about achieving a more positive result with the planned second treatment. Kind regards, Alex Strebel Original: Behandlung wegen starkem Tinnitus. Es hat zwar eine Reaktion gegeben. Jedoch nicht die erhoffte. Der Tinnitus schwankte vorher in meiner Empfindungs-Skala von 1 (schwach) - 10 (unerträglich) zwischen 3 und 7. Seit der Behandlung ist er eher flach geworden und mit Stufe 4-6 leider nicht weniger belastend. Da immerhin eine Reaktion erfolgte, bin ich zuversichtlich, mit der geplanten 2. Behandlung doch noch ein positiveres Resultat zu bekommen. Freundliche Grüße, Alex *****

 Translation: I came for treatment with dizziness, headaches, gastrointestinal problems, and depression also plays a big role for me. When I left the practice after the first treatment, I felt so incredibly good that I couldn't believe it, and those around me immediately noticed that something had happened. Since the treatment, I have had none of the aforementioned symptoms, and my panic attacks are so minimized that I can finally move freely again, without worrying about dizziness, nausea, panic, or anything else. I am sooooo grateful to Mr. Libossek for finally having my quality of life back, after being given up on by many doctors and being pumped full of psychotropic drugs because everything was blamed on my psyche. My conclusion: I would recommend Atlas therapy at any time!  Original: Ich kam zur Behandlung mit Schwindel, Kopfschmerzen, Magen Darm Problemen, auch Depression spielt bei mir eine große Rolle. Als ich nach der 1. Behandlung die Praxis verließ ging es mir so unglaublich gut, das ich es nicht glauben konnte, auch mein Umfeld bemerkte es sofort das was passiert ist. Ich habe seit der Behandlung keinerlei der o.g. Symptome mehr, auch meine Panikattacken sind soooo minimiert das ich mich endlich wieder frei bewegen kann, ohne Sorge vor Schwindel, Übelkeit, Panik, oder sonstiges. Ich bin Herrn Libossek sooooo dankbar, endlich wieder Lebensqualität zurück zu haben, nachdem ich von vielen Ärzten schon aufgegeben wurde und man mich mit Psychopharmaka vollpumpen wollte, weil man alles auf die Psyche geschoben hat. Mein Fazit: jederzeit würde ich die Atlatherapie weiterempfehlen !

Translation: My personal experience reports a very positive outcome. A non-invasive treatment has significantly improved a persistent and debilitating neck pain problem that had lasted for many years. I find it useful to share my experience to encourage those who skeptically do not believe they can undertake this treatment, highly recommending it.				
Original: La mia esperienza personale riporta un riscontro molto positivo del risultato ottenuto. Un trattamento non invasivo ha permesso di migliorare sensibilmente un problema di dolore nucale persistente e invalidante che durava da molti anni. Ritengo utile riportare la mia esperienza per incoraggiare chi scetticamente non crede di poter intraprendere questo trattamento, consigliandolo vivamente.

Translation: If my orthopedist hadn't mentioned and considered this treatment method, I probably wouldn't have used it. The website is too advertisement-heavy and tends to overshoot the mark with its overly persuasive presentation. Since my dizziness disappeared from one day to the next only 1 1/2 weeks after the treatment, and at the same time I was still dealing with the aftereffects of a COVID-19 infection, it is not clear from my perspective whether it was actually (exclusively) due to the Atlantomed treatment. Original: Hätte mein Orthopäde diese Behandlungsmethode nicht erwähnt und in Betracht gezogen, hätte ich sie vermutlich nicht in Anspruch genommen. Der Internetauftritt ist zu werbeintensiv und durch die unbedingt überzeugen wollende Darstellung tendenziell über das Ziel hinaus schießt. Da mein Schwindel erst 1 1/2 Wochen nach der Behandlung von einem Tag auf den anderen verschwand und ich zur selben Zeit noch mit den Nachwehen einer Corona-Infektion zu tun hatte, ist aus meiner Sicht nicht eindeutig zu beurteilen, ob es tatsächlich (ausschließlich) an der Atlantomed-Behandlung lag.

 Translation: Unfortunately, my atlas vertebra was displaced even more than it was before!!! I have terrible pain and numerous symptoms after the treatment, and they are getting worse every day! Unfortunately, after 3 months of fighting with the health insurance, I was not covered for an upright MRI, so I had to have it done at my own expense yesterday and today. My atlas vertebra is now more than just crooked and is even pressing into my spinal cord! Now I can't find a specialist who dares to tackle this and straighten everything out so that I can finally lead a somewhat normal life again! I am more than just disappointed. If the atlas therapist was not completely sure, then that should have been admitted!  Original: Leider wurde mein Atlaswirbel sogar noch mehr verschoben, als er vorher schon war!!! Ich habe schreckliche Schmerzen und zig Symptome nach der Behandlung bekommen und sie werden täglich schlimmer! Leider wurde mir nach 3 Monaten kämpfen mit der Krankenkasse kein Upright MRT bezahlt, weshalb ich dieses gestern und heute auf eigene Kosten habe machen lassen. Mein Atlaswirbel ist nun mehr als nur schief und drückt mir sogar schon ins Rückenmark! Nun finde ich keinen Fachmann, der sich da ran traut und das ganze wieder grade rückt, damit ich endlich wieder ein halbwegs normales Leben führen kann! Ich bin mehr als nur enttäuscht. Translation: I believe it is a treatment that anyone with cervical issues should undergo. Personally, I have experienced incredible and lasting benefits after years and years of endless, changing, and increasingly worsening discomfort. I underwent the treatment (both sessions) twice, about 6 months apart, and I sincerely recommend Atlantomed for the service it offers. Original: Credo che sia un trattamento che chiunque abbia dei problemi legati alla cervicale dovrebbe fare. Personalmente ho avuto dei benefici incredibili e duraturi dopo anni e anni di infiniti, mutevoli e sempre peggiori fastidi. Mi sono sottoposto al trattamento (entrambe le sedute) per due volte a distanza di circa 6 mesi e devo sinceramente consigliare Atlantomed per il servizio che offre

Translation: Initially, I was skeptical because I had already had negative experiences with osteopathy, paid a lot of money, but it didn't help. Daily stretching exercises and numerous visits to masseurs, cupping, TENS, etc., only brought temporary relief or nothing at all. My muscles were too severely hardened, and I had been suffering from the problems for 15 years. Some therapists told me I had poor posture, my hip was misaligned, but no one recognized an atlas issue. After the treatment at Atlantomed, I felt significant relaxation and pain relief, my posture improved, and I had much less frequent headaches, which I previously had 3-4 times a week. I would recommend it anytime. Original: Zunächst war ich skeptisch, da ich bereits negativ Erfahrungen mit Osteopathie gemacht hab, viel Geld bezahlt, es hat jedoch nichts geholfen, tägliche Dehnübungen und zahlreiche Besuche bei Masseuren, Schröpfen, Tens usw. brachten nur kurzfristige Erleichterung oder nichts. Meine Muskulatur war zu stark verhärtet, litt bereits seit 15 Jahren unter den Problemen. Einige Therapeuten sagte zu mir ich hätte eine schiefe Haltung, meine Hüfte wäre schief, jedoch erkannte niemand eine Atlasproblematik. Nach der Behandlung bei Atlantomed verspürte ich deutliche Entspannung und Schmerzlinderung, meine Haltung hat sich verbessert und viel seltener Kopfschmerzen, die ich zuvor bis zu 3-4mal in der Woche hatte. Würde ich jederzeit weiterempfehlen.

 Translation: I suffered from constant headaches, neck pain, and dizziness. During the first two to three weeks after the initial session, I noticed an adjustment phase; in the first week, the symptoms even increased, but then, they almost completely disappeared progressively. Today, more than two months after the first session and one week after the second, I have completely stopped using painkillers, only occasionally experiencing a slight headache that goes away on its own in an hour at most. As for the dizziness, gone. Completely satisfied! I will definitely return at least once a year for the vibro-resonance session on the spine, the sensation at the end of the session is wonderful and allows you to "reset" vertebrae and muscles from the postural errors that we find ourselves maintaining daily, for work or other reasons.  Original: Soffrivo di continui mal di testa, dolori cervicali e vertigini. Durante le prime due/tre settimane dalla prima seduta, ho notato una fase di assestamento, nella prima settimana i disturbi sono addirittura aumentati, per poi, progressivamente quasi scomparire. Oggi, a distanza di oltre due mesi dalla prima seduta e ad una settimana dalla seconda, ho completamente interrotto l'utilizzo di analgesici, solo sporadicamente ho un leggero mal di testa che passa da solo in un'ora al massimo. Riguardo alle vertigini, sparite. Completamente soddisfatto! Tornerò sicuramente almeno una volta ogni anno per effettuare la seduta con vibro risonanza alla colonna, la sensazione al termine della seduta è meravigliosa e permette di "resettare" vertebre e muscolatura dagli errori di postura che quotidianamente, per lavoro o altro, ci troviamo a tenere.

Translation: It is indeed the case that after the first treatment, the pain in my shoulder blade area decreased by at least 50% following a cervical spine herniated disc. After the second treatment, corrections were made to the painful areas, which actually brought me further pain relief. Overall, if you're at a loss, check out the relevant reports on the internet and book an appointment. Thank you!				
Original: es ist tatsächlich so, das nach der ersten Behandlung meine Schmerzen im Schulterblattbereich nach einem HWS BSV um min. 50% zurückgingen. Nach der 2. Behandlung wurden Korrekturen an den schmerzenden Stellen vorgenommen das mir tatsächlich auch nochmals eine Verminderung der Schmerzen erbrachte. Rundherum , wer nicht mehr weiter weis schaut euch die einschlägigen Berichte im Internet an und bucht einen Termin. Danke!

Translation: My head and neck complaints have significantly improved after the Atlas correction. The dizziness is almost gone too. It was a bit painful, but somehow the Atlas has to be put in the right position. The second treatment confirmed that the Atlas has remained in its correct position. I can wholeheartedly recommend the Atlantomed treatment with Mr. Moers and would like to sincerely thank him again. Original: Meine Kopf-und Nackenbeschwerden haben sich nach der Atlas -Korrektur deutlich verbessert. Auch der Schwindel ist fast weg. Bisschen schmerzhaft war es schon aber irgendwie muss der Atlas ja in die richtige Lage gebracht werden. Die zweite Behandlung hat bestätigt, dass der Atlas in seiner korrekten Lage geblieben ist. Translation: I can highly recommend Alexandros Michailidis. Friendliness ☐ Process ☐ Knowledge ☐ Honest ☐ Explanation ☐ Treatment ☐ Simply a professional who knows what he's doing!!! I had problems with dizziness for a very long time, especially when looking overhead, and my atlas was shifted to the right. After the treatment, everything was resolved ☐ Original: Ich kann Alexandros Michailidis nur wärmstens weiterempfehlen. Freundlichkeit ☐ Ablauf ☐ Kenntnisse ☐ Ehrlich ☐ Aufklärung ☐ Behandlung ☐ Einfach ein Mann vom Fach, der weiss was er tut!!! Ich hatte sehr lange Zeit Probleme mit dem Schwindel, vor allem wenn ich Überkopf schaute, Atlas war nach rechts versetzt. Nach den Behandlung war alles behoben ☐

 Translation: By now, my life was hell; the cervical pain was unbearable, I had constant dizziness and tinnitus, I suffered from severe postural problems and could no longer drive, work, or do simple household chores. All this started after a severe blow to the neck, so armed with patience, I tried any path that could help me feel better, but unfortunately, I had no luck. Then one night, in desperation, while browsing the internet, I stumbled upon atlantomed... well, I can only say that the results exceeded my wildest expectations. Just a few weeks after the second session, I already feel much better; even the specialists who were previously following me were amazed by my progress. I want to thank everyone, kind, friendly, and knowledgeable, you really saved me... HIGHLY RECOMMENDED  Original: Ormai la mia vita era un inferno il dolore cervicale era insopportabile, avevo vertigini e acufene continuamente, soffrivo di gravi problemi posturali e non riuscivo più a guidare, lavorare o fare semplici attività domestiche.. tutto questo era iniziato in seguito a un forte colpo al collo quindi armato di pazienza ho intrapreso qualsiasi via potesse aiutarmi a star meglio ma senza purtroppo avere fortuna.. poi una notte in preda alla disperazione navigando su internet mi sono imbattuto in atlantomed..... beh posso dire solo che i risultati sono andati oltre le mie più rosee aspettative, a poche settimane dalla seconda seduta mi sento già molto meglio, anche gli specialisti che mi seguivano precedentemente son rimasti stupiti dai miei progressi. Voglio ringraziare tutti, gentili, simpatici e preparati, mi avete davvero salvato.. CONSIGLIATISSIMO

Translation: The treatment has almost completely eliminated my neck problems. I'm also feeling better with my stomach, and finally, I'm gradually improving more and more regarding my pain in the gluteal/pelvic/hip area. I'm really happy I did it and I recommend it. With a reasonable expense, you get a great result. It's really worth it. Original: Il trattamento ha fatto sparire quasi del tutto i miei problemi cervicali. Sto anche meglio a livello di stomaco ed infine pian piano sto migliorando sempre di più per quanto riguarda il mio dolore in zona glutei/bacino/anche. Sono veramente felice di averlo fatto e lo consiglio. Con una spesa ragionevole si ottiene un grande risultato. Ne vale veramente la pena.

 Translation: After the treatment, my quality of life has significantly improved. I am no longer forced to periodically take painkillers for headaches or manage dizziness. In the morning, I wake up rested and no longer feel as if I had a boxing match during the night. At first, after the initial session, I was a bit skeptical, but as the days went by, I felt that something was changing. I believe it is a valid path and I hope it gets recognized in the medical field, as it improves the quality of life in many aspects.				
 Original: Dopo il trattamento, la mia qualità di vita è nettamente migliorata. Non sono più costretta ad assumere periodicamente antidolorifici per il mal di testa o gestire le vertigini. Al mattino mi sveglio riposata e non più come se avessi avuto, durante la notte, un incontro di box. All'inizio, dopo la prima seduta, ero un po' scettica ma col passare dei giorni, sentivo che qualcosa stava cambiando. Credo sia un valido percorso e spero venga riconosciuto in ambito medico, perché migliora la qualità di vita sotto molti aspetti.

Translation: The atlas correction has certainly significantly improved the mobility of the atlas. The cause of my long-standing headaches cannot be eliminated by the atlas correction, but overall the treatment has contributed to relief. In my case, it is necessary to find further (unknown to me) causes. These could lie in nutrition, in the psyche, or even where I do not suspect them at all. The headaches I suffer from, which appeared after a trauma over 40 years ago, are unfortunately a very complex issue. Original: Die Atlaskorrektur hat die Beweglichkeit des Atlas mit Sicherheit deutlich verbessert. Die Ursache meiner langjährigen Kopfschmerzen kann die Atlaskorrektur nicht beseitigen, insgesamt hat die Behandlung jedoch zu einer Linderung beigetragen. In meinem Fall gilt es, weitere (mir unbekannte) Ursachen zu finden. Diese könnten in der Ernährung liegen, in der Psyche oder auch dort, wo ich sie bisher überhaupt nicht vermute. Die Kopfschmerzen, unter denen ich leide, und die nach einem Trauma vor über 40 Jahren auftraten, sind leider ein sehr komplexes Thema.

🇬🇧 Translation: After a severe bicycle accident 5 years ago (falling at 50 over the handlebars and landing on my face), I had to deal with migraines 1-3 times a week, which originated from neck tension. I ignored the issue for a long time since dental repairs were necessary after the bicycle accident. Now in 2021, I was made aware of the topic of the atlas as a possible cause of migraines at Dr. Pfisterer's practice in Heilbronn - I could give it a try. Before that, I had never heard of the topic. At the end of September, I had my first appointment, during which Marcus Kraft examined everything from jaw tension to the atlas. The atlas was misaligned and was corrected. Since the first appointment (nothing needed to be corrected at the second appointment, and the jaw tension was now fine), I haven't had any migraines, so for almost 3 months - previously several times a week. I had normal headaches twice in the last 3 months, but they went away on their own. The migraines always lasted at least one, often even two days. In everyday life, I hardly have any neck tension anymore. The commercialization of the topic, including its own brand, admittedly put me off at first, but my conclusion after 3 months (I think you can already infer something) is extremely positive and if there is a suspicion of atlas problems, I can only recommend it. PS: Since the fall, my allergies have also gotten worse, especially the histamine intolerance. In the book by Kyra and Sascha Kauffmann, there is a section about a possible connection between cervical spine problems and histamine issues, and the atlas therapy certainly didn't hurt here. 🇩🇪 Original: Nach einem schweren Fahrradunfall vor 5 Jahren (Sturz bei 50 über den Lenker und auf dem Gesicht aufgeschlagen) hatte ich 1-3x wöchentlich mit Migräne zu kämpfen, die von Verspannungen im Nacken ausging. Das Thema hatte ich lange ignoriert, da nach dem Fahrradunfall erstmal Zahnreparaturen nötig waren. Jetzt in 2021 wurde ich in der Praxis Dr. Pfisterer in Heilbronn auf das Thema Atlas als eine mögliche Ursache von Migräne hingewiesen - ich könne es ja mal versuchen. Davor hatte ich von dem Thema noch nie gehört. Ende September hatte ich den ersten Termin, indem Marcus Kraft rundherum von der Kieferspannung über Atlas alles mögliche angeschaut hat. Der Atlas war verschoben und wurde korrigiert. Seit dem Erst-Termin (beim Zweit-Termin musste dann nichts mehr korrigiert werden, auch die Kieferspannung war jetzt in Ordnung) hatte ich keine Migräne mehr, also seit knapp 3 Monaten - zuvor wöchentlich mehrfach. Ich hatte noch 2x normale Kopfschmerzen innerhalb der letzten 3 Monate, die dann aber von selber wieder leicht weggingen. Die Migräne hielt immer mindestens einen, oft auch 2 Tage an. Im Alltag habe ich kaum noch Nackenverspannungen. Die Kommerzialisierung des Themas inkl. eigener Marke hat mich zugegeben erst abgeschreckt, mein Fazit nach 3 Monaten (ich denke da kann man schon etwas ableiten) ist aber äußerst positiv und wenn ein Verdacht auf Atlasprobleme besteht kann ich das nur empfehlen. PS: Seit dem Sturz wurden auch meine Allergien stärker und insbesondere die Histaminintoleranz. Im Buch von Kyra und Sascha ***** ist ein Abschnitt über einen möglichen Zusammenhang von HWS Problemen und Histaminproblemen, hier wird die Atlasterapie sicher nicht geschadet haben.

Translation: Offering an alternative when something did not happen as expected would have been nice, the Atlas has reverted to its original state and even after the second correction it did not last long. Translation: For the last question, there should be even more stars after many years of pain and countless different doctor appointments and physios... I swallowed Ibus 800 and Tilidin like gummy bears. It took Alex just 2 sessions to tell me what my problem was and to get me pain-free again. About 2 years ago, I already got the recommendation to see Alex from a very good friend, but I always put it off until a few weeks ago. And I am still glad that I took the step and went to Alex. Original: Bei der letzten Frage müssten es noch mehr Sterne sein nach vielen Jahren Schmerzen und unzähligen verschiedenen Arztterminen und Physios... Ibus 800 und Tilidin wie Gummibärchen geschluckt ist es Alex in 2 Sitzungen mir zu sagen was mein Problem war und mich wieder schmerzfrei zu bekommen. Ich bekam vor etwa 2 Jahren schon von einem sehr guten Freund die Empfehlung zu Alex aber hatte mich immer gedrückt bis vor ein paar Wochen und ich bin noch immer froh das ich den Schritt machte und zu Alex ging

Translation: My atlas has been completely corrected, and I especially notice the correction in my posture and stature. The migraines and other problems I had before are still present. However, the complaints may also be caused by other factors that the atlas correction cannot address. Nevertheless, I would definitely recommend the treatment. The specialists know what they are doing, and you are in good hands with Mr. Gorgulla. Original: Mein Atlas wurde vollständig korrigiert und merke die Korrektur vor allem in meiner Haltung und Statur. Die Migräne und weitere Problem, die ich vorher schon hatte, sind nach wie vor noch da. Die Beschwerden können aber auch durch andere Ursachen hervorgerufen sein, die die Atlas Korrektur nicht beheben kann. Ich würde aber dennoch die Behandlung auf alle Fälle empfehlen. Die Spezialisten wissen was sie tun, man ist bei Herr Gorgulla in guten Händen.

Translation: Years of marathons with specialists and physiotherapists due to chronic dizziness, dejection, constant fatigue, depression, recurring tension in the back, shoulders, and neck, knee problems, a feeling of tightness in the throat, and much more. Nothing has helped well in the long term. Through a tip from my close circle, I came to Frau Klappstein-Bode, whom I got to know as an extremely pleasant, empathetic, and highly competent woman in her field. During the manual examination, a significant rotational displacement of my atlas vertebra was detected. Already after the first session, a lot has noticeably improved. The treatment itself was completely painless and, aside from a little pressure here and there, anything but unpleasant! Meanwhile, the second session was almost a month ago, and I notice week by week how I am feeling better and better, and the quality of life is increasing more and more. Even my pollen and house dust allergies have unexpectedly disappeared. Full of confidence, I am now curious to see what else the future will bring. In any case, I am finally going through life much more carefree again!!! I would have done it much sooner if I had known about it earlier!!! Thank you very much!!! Original: Jahrelanger Fachärzte- und Physiotherapeuten-Marathon wegen chronischen Schwindels, Niedergeschlagenheit, ständiger Müdigkeit, Depressionen, immer wiederkehrenden Verspannungen im Rücken, Schulter und Nacken, Kniebeschwerden, Engegefühl im Hals u.v.m. Nichts hat langfristig gut geholfen. Durch einen Tipp in meinem näheren Umfeld bin ich zu Frau Klappstein-Bode gekommen, die ich als eine äußerst sympathische, empathische und höchst kompetente Frau ihres Fachs kennengelernt habe. Bei der manuellen Ertastung konnte eine erhebliche Rotationsverschiebung meines Atlaswirbels festgestellt werden können. Bereits nach der ersten Sitzung hat sich Einiges direkt deutlich gebessert. Die Behandlung an sich war komplett schmerzfrei und, bis auf ein wenig Druck hier und da, alles andere als unangenehm! Mittlerweile ist die 2. Sitzung auch schon einen knappen Monat her und ich merke von Woche zu Woche, wie es mir immer besser geht und die Lebensqualität immer mehr zunimmt. Selbst meine Pollen- und Hausstauballergien sind ganz unerwartet verschwunden. Voller Zuversicht, bin ich nun gespannt, was die nächste Zeit noch so alles bewirkt. Auf jeden Fall gehe ich nun endlich wieder erheblich unbeschwerter durchs Leben!!! Ich hätte es auch schon viel eher gemacht, wenn ich schon vorher davon erfahren hätte!!! Vielen herzlichen Dank!!!

 Translation: My symptoms have not resolved with the Atlas treatment. I am still undergoing weekly physiotherapy and bi-weekly osteopathy treatments, but since the Atlas treatment, my symptoms have stabilized or improved. I suspect that the Atlas treatment is the reason for this. Before the Atlas treatment, my symptoms did not significantly improve with physiotherapy and osteopathy.  Original: Meine Beschwerden haben sich durch die Atlas-Behandlung nicht aufgelöst. Weiterhin bin ich in wöchentlicher Physiotherapie-Behandlung und 14-tägiger Osteopathie-Behandlung, jedoch stabilisieren bzw. verbessern sich seit der Atlas-Behandlung meine Beschwerden.  Translation: In addition to making me feel comfortable, she proved to be very professional and competent in correcting the atlas. After the correction, I immediately felt the tension decrease at the base of my skull, and I saw the difference in the spine before and after it aligned, and the left shoulder also aligned with the right shoulder. After two months with the second session, the pain decreased. I hope for a full recovery since I've been carrying this issue since I was young, and it takes more time. Anyway, it changed my life.				
 Original: Oltre al fatto di farmi sentire a mio agio si è dimostrata molto professionale e competente per la correzione dell'atlante, che dopo effettuata ho sentito subito la tensione calare alla base del cranio e ho visto la differenza della colonna prima e dopo si è allineata e anche la spalla sinistra si è allineata alla spalla destra'. Dopo due mesi con la seconda seduta i dolori sono diminuiti. Spero a una totale ripresa visto che me la porto dietro da piccolo e quindi ci vuole più tempo. Comunque mi ha cambiato la vita.

 Translation: The evaluation of the result is not related to the treatment itself. It reflects the body's reaction. This cannot correct a 40-year-old misalignment with a treatment. However, the treatment itself has noticeably reduced the discomfort. I hope this information can put the evaluation of the result into perspective.  Original: Die Bewertung des Ergebnisses hat nicht mit Behandlung an sich zu tun. Es widerspiegelt die Reaktion des Körpers. Translation: I was received and advised very kindly. After the first session, I felt significantly better. I had the feeling that the atlas was also realigned. The treatment with Vibro was also good for my spine. Unfortunately, I had expected more from the second treatment. The right side of the cervical spine is unfortunately still under tension. I wish further corrections were possible. Otherwise, I rate both treatments with a 2 (-). I will still recommend it because it helped me a lot, the practice including the staff made a very good impression on me, and I believe that this type of treatment can help many people. Sincerely, Adrian Grube Original: Ich bin sehr freundlich empfangen und beraten worden. Nach der ersten Sitzung ging es mir deutlich besser. Ich hatte das Gefühl, dass der Atlas auch wieder eingereckt wurde. Auch die Behandlung mit Vibro tat meiner Wirbelsäule gut. Leider hatte ich mir von der zweiten Behandlung mehr versprochen. Die rechte Seite der HWS ist leider immer noch unter Spannung. Ich wünschte, es wären noch weitere Nachkorrekturwn möglich. Ansonsten bewerte ich beide Behandlungen mit 2 (-) Ich werde es trotzdem weiter empfehlen, weil es mir sehr geholfen hat, die Praxis inklusive Peronal einen sehr guten Eindruck auf mich gemacht haben und ich glaube, dass diese Behandlungsart vielen Menschen helfen kann. Whether it will lead to long-term relief from symptoms, I can't say yet, but at least the severe pain hasn't returned. However, you still have to keep at it, no exercise=pain. Translation: Grazie mille per il trattamento; le mie emicranie sono diminuite sostanzialmente sia in frequenza che in intensità. Il mio collo e le mie spalle, che si bloccavano completamente fino a un punto estremo, sono ora molto più flessibili (ho ancora tensione e qualche rigidità a volte, ma non al punto da dover tenere la testa). Il personale del centro è stato molto gentile nel prenotarmi quando ho avuto difficoltà a registrarmi online con il mio telefono non-UE, e il terapeuta è stato molto paziente con il mio italiano molto limitato. Il massaggio con la macchina prima dell'allineamento è migliore di qualsiasi massaggio dei tessuti profondi/massaggio sportivo; se vivessi più vicino tornerei lì solo per quello. Molto rilassante! L'allineamento è stato super doloroso, ma quella parte è stata piuttosto breve e ne è valsa la pena poiché ha ridotto molto le mie emicranie (quando ho avuto gli attacchi di emicrania, ho sofferto per 2-3 giorni consecutivi con un dolore orrendo, nausea e incapace di fare qualsiasi cosa se non restare in una stanza tranquilla e buia). Segnalo anche che il centro è bello e pulito, osservando le regole sulla prevenzione della diffusione del Covid-19; è accanto alla stazione ferroviaria quindi super facile da raggiungere e comodo. Ancora una volta grazie mille. Original: Thank you so much for the treatment; my migraines have decreased substantially both in frequency and intensity. My neck and shoulders, that used to get completely blocked to an extreme point, is now much more flexible (I still have tension and some stiffness sometimes but not to the point that I have to hold my head). The staff at the center was super nice in booking me when I had difficulties when registering online with my non-EU mobile phone, and the therapist was very patient with my very limited Italian. The massage with the machine before the alignment is better than any deep tissue massage/sports massage; if I lived closer I would go back there just to get that. Very relaxing! The alignment was super painful, but that part was quite short and very much worth it as it decreased a lot my migraines (when I got the migraine attacks, I suffered for 2-3 straight days with horrendous pain, nausea and incapable of doing anything but to stay in a quiet, dark room). I also note that the center is nice and clean, observing the rules on Covid-19 spread prevention; it is next to the train station so super easy to reach and convenient. Again thank you very much.

Translation: My expectations have been fulfilled much more than I had hoped. After a long life with migraines, I am free from them following the treatment. There were still a few episodes of tension headaches. I assume this is due to the body's adjustment. I have recommended the treatment without reservation. Original: Meine Erwartungen haben sich viel mehr erfüllt, als ich mir erhofft habe. Nach einem langen Leben mit Migräne bin ich nach der Behandlung davon befreit.  Translation: In the short term, I actually felt better. However, I believe that after the correction, manual therapy/massage should be carried out for about 4 weeks. Depending on how long the individual patient has lived with a misaligned atlas, the muscles and posture have become so established that a single muscle relaxation is not sufficient. The body needs time to adjust to the new posture. The result could certainly be improved and maintained in the long term with subsequent therapy. Unfortunately, I cannot feel any lasting success and I actually attribute it to the lack of follow-up care after the treatment.				
 Original: Kurzfristig ging es mir tatsächlich besser. Ich bin aber der Meinung, dass nach der Korrektur eine manuelle Therapie/Massage für ca. 4 Wochen erfolgen sollte. Je nachdem wie lange der einzelne Patient mit einem verschobenen Atlas gelebt hat, haben sich die Muskeln und auch die Haltung so gefestigt, dass eine einzelne Muskellockerung hierfür nicht ausreichend ist. Der Körper braucht eine Zeit um sich an die neue Haltung zu gewöhnen. Das Ergebnis könnte durch eine anschließende Therapie sicher verbessert und auch langfristig gehalten werden. Ich kann leider keinen Dauerhaften Erfolg verspüren und führe es tatsächlich auf die fehlende Betreuung nach der Behandlung zurück.

Translation: The treatment was well carried out by the therapist and the practitioner was also competent, however, the effect of the treatment diminished somewhat after 2 months. A third treatment had to be performed. Currently, things are going well, although I have to stretch myself from time to time. We'll see how things look in a few weeks. Usually, the discomfort returns when sitting for long periods, when it gets cooler, and when a few weeks have passed since the treatment. The treatment definitely showed an effect, but whether this was the absolute solution will only become apparent over time. Original: Die Behandlung war gut durch den Therapeuten durchgeführt und der Behandelnde war auch kompetent, allerdings hat die Wirkung der Behandlung nach 2 Monaten etwas nachgelassen. Man musste dann eine 3. Behandlung durchführen. Derzeit geht es soweit gut, allerdings muss ich hin und wieder selber nachdehnen. Mal sehen wie es in ein paar Wochen aussieht. Meist kommen die Beschwerden dann wieder wenn man lange sitzt, es kühler wird und wenn ein paar Wochen nach der Behandlung vergangen sind. Wirkung hat die Behandlung auf jeden Fall gezeigt, ob dies allerdings die absolute Lösung war wird sich erst im Laufe der Zeit zeigen.

 Translation: My lower back pain has significantly improved with the treatment - for a while, it was completely gone. Now I can permanently tackle the pain with my exercises. Mr. Kraft competently addressed my complaints. I would recommend this treatment anytime and return if needed. Thumbs up!				
 Original: Meine Schmerzen im Lendenwirbelbereich wurden durch die Behandlung deutlich besser - längers waren sie ganz weg. Jetzt kann ich mit meinen Übungen dauerhaft gegen die Schmerzen angehen. Herr Kraft ist kompetent auf meine Beschwerden eingegangen. Jederzeit würde ich diese Behandlung weiterempfehlen und bei Bedarf wiederkommen. Daumen hoch!

Translation: Between the 1st treatment and the 2nd treatment, I needed 22 headache tablets on some days. From the 2nd treatment until today, then 46 headache tablets. Overall, I have only experienced minimal improvement and my cervical spine does not feel as stable as it did before the treatment. Occasionally, it cracks, and that is not exactly pleasant. I also took my daughter to my 2nd treatment for her 1st treatment. She, too, has not experienced any improvement so far and does not currently want a 2nd treatment. Original: Zwischen der 1. Behandlung und der 2. Behandlung habe ich 22 Kopfschmerztabletten an einigen Tagen gebraucht. Ab der 2. Behandlung bis heute dann 46 Kopfschmerztabletten. Zwischendurch knackt es in ihr und das ist nicht gerade angenehm. Meine Tochter hatte ich auch bei meiner 2. Behandlung zur 1. Behandlung mitgenommen.  Translation: Arno Meurs is a very competent therapist. I felt very well informed, integrated into the process, and supported. He took the time to explain the documentation from before and after the treatment in a way that was clear to me. My symptoms have disappeared or have significantly improved. I consider this atlas therapy to be a very effective form of therapy.  Original: Arno Meurs ist ein sehr kompetenter Therapeut. Ich habe mich sehr gut informiert, in den Ablauf integriert und aufgehoben gefühlt. Er hat sich die Zeit genommen die Dokumentation von vor und nach der Behandlung mir so zu erklären, dass es auch für mich deutlich zu erkennen war. Meine Beschwerden sind verschwunden bzw. haben sich deutlich verbessert. Ich halte diese Atlasterapie für eine sehr effektive Therapieform.

 Translation: I went to Atlas Correction with Andreas in Krummhörn. The correction at the first appointment was amazing. Honestly, I didn't expect much from it. In the following weeks, my whole body worked intensely. My physio and osteopath were totally positively shocked. All tensions in the jaw, face, neck area, shoulder girdle, and back decreased and even disappeared completely in some cases. Finally, they could work on me, which hadn't helped at all for years! My headaches are not gone, but they have a different background (CMD). However, the jaw suddenly sat differently, and the splint treatment with Dr. Ahlers in Hamburg (also highly recommended) finally progressed! ☐☐ The second treatment was for potential follow-up correction, but the atlas was perfectly aligned. And that didn't bring any more changes. A friend of mine and her sister recommended Andreas to me, and they got rid of their chronic daily headaches by 90% ☐☐ I find Atlas Therapy generally daring, but with Andreas, nothing can go wrong. Besides, he is incredibly kind and sympathetic, sensitive and gentle. He really knows what he's doing. And the treatment was not unpleasant at all, on the contrary. I can finally turn my head normally again, everything is looser and finally responds positively to treatments and self-treatments. I'm super happy I went there. Oh yes, I also grew 2.5 cm, and the "hump" over the 7th cervical vertebra, which was already much better due to the CMD splint, is now completely gone. The treatment was 2 or 3 months ago. Oh yes, I had 13 trigger points on my back, which were all gone except for one and have never returned ☐☐♥ thank you Andreas☐☐

 Original: Ich war zur Atlas Korrektur bei Andreas in Krummhörn. Die Korrektur beim ersten Termin war der Hammer. Habe mir ehrlich gesagt nicht viel davon versprochen. In den darauffolgenden Wochen hat der ganze Körper massiv gearbeitet. auch Meine Physio und Osteopathin waren total positiv geschockt. Alle Verspannungen im Kiefer, Gesichts und Halsbereich, Schultergürtel und Rücken wurden weniger und verschwanden teils sogar ganz. Endlich konnte man an mir arbeiten, was jahrelang gar nichts gebracht hat! Meine Kopfschmerzen sind nicht weg, haben auch aber einen anderen Hintergrund (CMD). Allerdings saß der Kiefer auch plötzlich ganz anders und die Schienen Behandlung bei Dr Ahlers in Hamburg (auch sehr zu empfehlen) ging endlich weiter vorwärts! ☐☐ Die zweite Behandlung war ja zur etwaigen Nachkorrektur, aber der Atlas saß perfekt. Und das hat dann auch keine Veränderung mehr gebracht. Eine Bekannte von mir und ihre Schwester haben mir Andreas empfohlen und sind ihre chronischen täglichen Kopfschmerzen zu 90% losgeworden ☐☐ ich finde Atlas Therapie generell gewagt, aber bei Andreas kann nichts schiefgehen. Ausserdem ist er unfassbar lieb und sympathisch, einfühlsam und behutsam. Er weiss wirklich was er tut. Und die Behandlung war null unangenehm, im Gegenteil. Kann endlich wieder meinen Kopf normal drehen, alles ist lockerer und reagiert endlich positiv auf Behandlungen und Selbstbehandlungen. Bin super happy das ich da war. Ach ja, 2,5cm gewachsen bin ich auch noch und der " Buckel" über den 7 Halswirbel, der durch die CMD Schiene schon viel besser war, ist nun komplett weg. Die Behandlung war vor 2 oder 3 Monaten. Ach ja, ich hatte 13 Triggerpunkte am Rücken, die waren bis auf einen einzigen direkt komplett weg und sind nie wieder gekommen ☐☐♥ danke Andreas☐☐

Translation: Hello; in the days following the treatment, I did not notice any improvements, but as the months went by, everything changed: starting from the shoulder blades and then to the back, arms, pelvis, knees, and down to the feet, I first felt pain and then a realignment due to the incorrect position assumed for years. I have regained almost 100% of the lost balance, even though it took some time; I am very happy but would be curious about a further check-up; how much would it cost? Unfortunately, there remains the issue of the excessive distance from the center, although for work reasons I have traveled to Milan several times in the past months and maybe I should return, which would allow for a visit....				
Original: Salve; nei giorni successivi al trattamento non ho riscontrato miglioramenti, ma col passare dei mesi tutto è cambiato: a partire dalle scapole e di seguito alla schiena, alle braccia, al bacino, alle ginocchia e sino ai piedi ho sentito prima dolore e poi un riallineamento dovuto alla posizione non corretta assunta per anni. Ho ritrovato l'equilibrio perso quasi al 100%, anche se ho messo del tempo; sono contentissimo ma sarei curioso per un'ulteriore controllo; quanto spenderei? resta purtroppo il problema dell'eccessiva lontananza dal centro, anche se per questioni lavorative sono salito a Milano più volte nei mesi passati e forse dovrei ritornarci, il che consentirebbe una visitina....

Die Ursache meiner Beschwerden konnte dadurch beseitigt werden, mit den Auswirkungen habe ich noch zu kämpfen. Es wäre schön, wenn Atlantomed mehr für das Bekanntwerden dieser Methode tun würde - dann könnte noch mehr Menschen geholfen werden.

Translation: ordine. Bei einer Atlantec-Behandlung wurde tatsächlich eine Atlas-Verschiebung festgestellt. Nach der Behandlung fühlte ich mich sofort leichter und beweglicher. Die Muskelschmerzen und das Brennen im Nacken sind seitdem deutlich zurückgegangen. Ich kann jetzt auch wieder auf dem Bauch schlafen, ohne Beschwerden. Es war ein großer Schritt für meine Lebensqualität und ich bin sehr dankbar, dass ich den Mut hatte, es auszuprobieren. Original: Da bei mir eine Autoimmunerkrankung erkannt wurde, meldete ich mich beim Autoimmunportal an, um Wissen zu erlangen, wo die Schulmedizin nicht weiterhilft. Dort werden regelmäßig und zu vielen Beschwerde-Themen in puncto Gesundheitswissen kostenlose Online-Kongresse veranstaltet. Bei einem dieser Kongresse wurde über die Atlantec-Methode informiert. Da ich einige Verdachtsmomente im Leben hatte, die auf eine Atlas-Verschiebung hindeuteten (Zangengeburt, Verkehrsunfall mit Schleudertrauma, Mandel-OP mit möglicher unsachgemäßer Lagerung des Kopfes und ein Remppler aus vollem Lauf in den Rücken mit Schleudertrauma) hatte ich mir gedacht, ich lasse es einfach mal überprüfen. Mein Kopf und Nacken waren schwer beweglich und eine Stunde am PC (egal in welcher Sitzposition) bescherte mir Muskelschmerzen und Brennen im Nacken, manchmal über Tage hinweg. Auf dem Bauch schlafen ging überhaupt nicht, egal in welche Richtung der Kopf lag. Schulmedizin mit MRT und der Aussage: da ist nichts verschoben-alles in

 Translation: Mrs. Gennen is very competent and put in a lot of effort. She took enough time and answered questions very thoroughly and with a lot of expertise. After the first treatment, I initially experienced a significant worsening of many symptoms, which were then alleviated by osteopathy. After 3 weeks, a noticeable improvement began. During the follow-up treatment, my atlas was still straight. To this day, I am very satisfied. I still have a few symptoms, but they probably have nothing to do with the atlas misalignment anymore, and I can therefore confidently recommend the treatment.  Original: Frau ***** ist sehr kompetent und hat sich viel Mühe gegeben. Sie hat sich genügend Zeit genommen und Fragen sehr ausführlich und mit viel Fachwissen beantwortet. Nach der ersten Behandlung hatte ich erst einmal eine ganz schöne Verschlimmerung vieler Symptome, die aber dann durch Osteopathie gelindert wurden. Nach 3 Wochen setzte eine merkliche Besserung ein. Bei der Nachbehandlung stand mein Atlas immer noch gerade. Bis heute bin ich sehr zufrieden. Ich habe noch ein paar Symptome, die aber wohl mit der Atlasfehlstellung nichts mehr zu tun habe und kann deshalb guten Gewissens die Behandlung weiter empfehlen.

 Translation: Dear Sirs, I am Ilenia Fiorenzo and I visited you for the first time on October 15th with enormous problems, including dizziness, vertigo, back pain, headaches, and cervical pain. Immediately after the first treatment, my health conditions improved, until the second check-up, which took place after 2 months. My therapist, Davide Colombo, very kindly told me that if I had major future problems, they were certainly not due to the first vertebra but to a bad dental malocclusion. Here I am today to tell you that I am feeling very unwell, that the back pain has worsened, and I am continuing with anti-inflammatories. I would have loved to speak directly with Davide, but I couldn't find any contact information. I am leaving my contact so you can reach me. 3282026495 Ilenia Fiorenzo  Original: Gent.mi sono Ilenia ***** e mi sono recata da voi per la prima volta il 15 ottobre,avevo dei problemi enormi,tra sbandamenti, vertigini,dolori alla schiena,mal di testa e cervicgia. Subito dopo il primo trattamento le mie condizioni di salute sono migliorate,fino al secondo controllo,avvenuto dopo un 2 mesi, il mio terapistista Davide Colombo gentilissimo mi disse che qualora avessi avuto dei grossi problemi futuri sicuramente non erano dovuti alla prima vertebra ma a una brutta malocclusione dentale ,eccomi qui ad oggi a dirvi che sto malissimo,che i dolori alla schiena sono peggiorati e vado avanti con antinfiammatori,avrei tanto voluto parlare direttamente con Davide ma non ho trovato alcun recapito.  Translation: After atlas correction, severe jaw joint problems on the right (joint dislocates / orthodontic treatment initiated), problems eating, issues with neck pain on the right side when turning the head. Pressure pain on two vertebrae at the bottom of the spine and muscle tension/pain. Additionally, arm pain on the right and left at the muscle and tendon insertions. I have scheduled an appointment with a specialist to check the atlas position (second opinion). I regret having the correction done. Ms. Dreppenstedt said after the correction: what happened there, or when walking: If it went wrong, I should report back. At the second follow-up appointment, I described my problems. She said the atlas was in the correct position. If she had known beforehand, she would not have performed the correction.  Original: Nach Atlaskorrektur starke Kiefergelenkprobleme rechts (Gelenk renkt sich aus / Kiefer Orthopäden Behandlung aufgenommen) , Probleme beim Essen, Problem HWS schmerzen rechtseitig beim Drehen des Kopfes. Wirbelsäule unten Druckschmerz an 2 Rückenwirbeln bzw. Muskelverspannung7Schmerzen .Dazu dann auch Armschmerzen recht und links der Muskeln und Sehnenansätze. Ich habe einen Termin zur Überprüfung der Atlasposition bei einem Facharzt abgesprochen (2 Meinung). Ich bereue die Korrektur durchgeführt haben zu lassen. Fr.Dreppenstedt hat nach der Korrektur gesagt:was ist da denn passiert, bzw. beim gehen : Falls in die Hose gegangen ist soll ich mich wieder melden. Beim 2 ten Kontrolltermin hatte ich meine Probleme geschildert. Sie sagte, der Atlas hätte die richtige Position. Wenn sie es vorher gewusst hätte, hätte sie die Korrektur nicht durchgeführt.

 Translation: The only point of criticism during the second session was that I was not granted the full treatment time because the questionnaire was given to me too late, and I could only fill it out at the beginning of my treatment. I arrived 15 minutes before the appointment on time. Although I was assured that the treatment would not be shortened, it still happened. After all, it costs quite a bit of money, and one expects professional treatment, including from the reception staff who could have prepared the documents in advance. Therefore, one star deducted for the treatment process.  Original: Der einzige Kritik Punkt bei der zweiten Sitzung wurde mir nicht die volle Behandlungszeit gewährt da man mir den Fragebogen zu spät gab und ich ihn deshalb am Anfang meiner Behandlung erst schreiben konnte. Ich war 15 Minuten vor dem Termin da pünktlich da. Man hat mir zwar zugesichert das es zu keiner Verkürzung der Behandlung kommt ist aber trotzdem passiert. Immerhin kostet es einiges an Geld und da erwartet man professionelle Behandlung auch durch das Personal am Empfang die die Unterlagen ja vorher schon raussuchen können. Deshalb einen Stern Abzug im Ablauf der Behandlung.

 Translation: The treatment was conducted seriously and comprehensibly with accompanying explanations from the therapist. This method is the only treatment that has sustainably freed me from my migraines so far. Currently, I am even phasing out my long-term medication for preventive migraine treatment. Mr. Gorgulla was very friendly and made every effort to make the treatment as painless as possible. Through the absolutely professional Atlas correction, I have regained a piece of quality of life and would undergo this treatment again at any time and will also recommend it. Thank you very much, Mr. Gorgulla :-))  Original: Die Behandlung wurde seriös und nachvollziehbar durch begleitende Erläuterungen des Therapeuten durchgeführt. Diese Methode ist die einzige Behandlung, die mich bislang nachhaltig von meiner Migräne befreit hat. Aktuell lasse ich sogar meine Dauermedikation zur vorbeugenden Migränebehandlung auslaufen.  Translation: Good morning, I waited to respond to the questionnaire to have a more complete idea of the treatment outcome. After the first session, the headache episodes had decreased significantly, by about 70%, while the migraine episodes were essentially stable. After the second session, which took place at the beginning of February, I had a month with 6 episodes (a great result compared to the average of 15, with peaks of almost 20 monthly), but a month of March with 18 episodes and one in April with 8. So overall, I noticed an average improvement of 50% (reduction in tension-type headache episodes, not migraine ones) and therefore I am half satisfied: precisely 50%.				
 Original: Buongiorno, ho aspettato a rispondere al questionario per avere un'idea più completa del risultato del trattamento. Dopo la prima seduta gli episodi di cefalea erano molto diminuiti, circa del 70%, mentre quelli di emicrania erano sostanzialmente stabili. Dopo la seconda seduta, che *****le all' inizio di febbraio, ho avuto un mese con 6 episodi (ottimo risultato rispetto alla media di 15, con picchi di quasi 20 mensili), ma un mese di marzo con 18 episodi e uno di aprile con 8. Quindi nel complesso ho rilevato un miglioramento medio del 50% (contenimento degli episodi di cefalea muscolotensiva, non di quelli emicranici) e sono quindi soddisfatta a metà: appunto del 50%.

 Original: Ich hatte seit 2-3 Jahren starke Tinnitus- und Hörsturz-Attacken, mitunter ausgelöst durch ständige Verspannungen. Seit der Behandlung haben sich die Attacken gelegt, nur der andauernde Tinnitus ist noch da. Auch die Verspannungen sind sehr viel weniger geworden. Allgemein geht es mir viel, viel besser! Translation: Hello everyone, my experience with Thomas Baur for atlas correction through Atlantomed was more than positive. No one could help me with my migraine attacks and headaches. I was already despairing and, depending on the symptoms, I couldn't even sleep anymore. Then I accidentally came across the atlas correction by Atlantomed and made an appointment with Thomas Baur in Bad Tölz. The treatment and follow-up were a total success. I hardly had a single migraine attack (despite several days of foehn weather) anymore. The headaches also didn't occur anymore. A massive improvement in my quality of life! Thank you and best regards, René M. Original: Hallo Zusammen, meine Erfahrung bei Thomas Baur zur Atlaskorrektur nach Atlantomed waren mehr als positiv. Niemand konnte mir mit meinen Migräneattacken und Kopfschmerzen weiterhelfen. Ich war schon am Verzweifeln und konnte je nach Beschwerden nicht einmal mehr schlafen. Dann bin ich zufällig über die Atlaskorrektur von Atlantomed gestoßen und habe einen Termin bei Thomas Baur in Bad Tölz vereinbart. Die Behandlung und Nachbehandlung war ein totaler Erfolg. Ich hatte so gut wie keinen einzigen Migräneanfall (trotz mehrtägiger Föhnwetterlage) mehr. Die Kopfschmerzen sind auch so nicht mehr aufgetreten. Eine massive Verbesserung meiner Lebensqualität! Translation: The two in the practice were absolutely friendly and competent. However, I got the impression that there is a shortage of money in the practice. Everyone who came in or accompanied someone was immediately told how crooked and twisted they were and that they absolutely needed to make an appointment. My "treatment" was calm and competent, and I was also persuaded to get a treatment on my spine from the assistant with a tapping massage device, and boom, another 150 € extra, from which the young man immediately took 50 in front of my eyes and put it in his pocket... very, very strange and uncomfortable for me! Also, I don't even dare to ask if they can check again, as my tinnitus on the right side has become really loud, and it doesn't seem to be due to the ear! Oh yes... I also didn't find it great that during their break, they smoked in the kitchen area, and the waiting area smelled very strongly of it... Zudem traue ich mich gar nicht zu fragen ob man nochmal nachschauen kann, da mein Tinnitus rechts so richtig laut geworden ist und am Ohr scheint es nicht zu liegen! Ach ja...  Translation: I am very satisfied with Mr. Kraft's atlas correction on me. My headaches were still persistent, but after about 3 months, I had none anymore. An acquaintance who also did an atlas correction course examined the position of the atlas on 04/03/2021. The position is still correct today. Thank you very much. What I really liked was the follow-up examination; Mr. Kraft took his time and made a small correction. I am very satisfied.  Original: Ich bin sehr zufrieden mit Herrn Kraft seiner Atlaskorrektur an mir. Meine Kopfschmerzen waren zwar noch hartnäckig, aber nach ca. 3 Monate hatte ich keine mehr. Eine Bekannte die auch eine Atlaskorrekturschulung gemacht hat, hatte mich am 03.04.2021 hinsichtlich der Lage des Atlas untersucht. Die Lage stimmt noch bis heute. Vielen Dank. Was mir sehr gut gefallen hat, war die Nachuntersung, Herr Kraft hat sich richtig Zeit genommen und eine kleine Korrektur noch vorgenommen. Bin sehr zufrieden.

Translation: As described over the phone, I was in constant severe neck pain for months... until I had a bad car accident and the strong whiplash... fixed my neck. In fact, now by continuing the exercises, my neck is doing great, but the problems with my shoulders are starting again, with associated epicondylitis and epitrochleitis that afflicted me before, and I can only keep it under control with the help of constant exercises for the shoulders and arms. I don't know what to do!

Translation: During the treatment, the operator frequently dropped the hammer, and I initially thought it was normal. Only later did I realize that the procedure hadn't been done properly, as during the second session, the positioning of the Atlas was incorrect. Shortly thereafter, I began to suffer from bruxism and tension in the cervical and mandibular areas, which increased my headaches, the very issue for which I had turned to atlantomed. Therefore, I did not experience any benefits; on the contrary (although there is no demonstrable data), my condition worsened. Original: Durante il trattamento all'operatrice sfuggiva più volte il martello, pensavo in fede fosse normale, solo dopo ho capito che non aveva operato bene, infatti al secondo incontro il posizionamento dell'Atlante non era corretto. Dopo poco tempo ho iniziato a soffrire di bruxismo e tensioni a livello cervicale e mandibolare che mi hanno aumentato i casi di mal di testa, per il quale problema mi ero rivolta ad atlantomed. Ergo non ho avuto benefici ma anzi (ovviamente non ci sono dati dimostrabili) peggioramenti della mia condizione.

Translation: I find it terrible how atlantomed suggests on the website to seriously ill people that the atlas correction is a safe method to relieve their pain. On the contrary, manipulations of the cervical spine - especially by non-medically trained personnel - are dangerous and have the potential to worsen existing complaints or even cause new ones. Of course, the atlas correction did not lead to any improvement for me either - how could it? Today I know better, back then I was simply desperate and grasped at every straw to get rid of my pain. They profit from the helplessness of sick people. That is cruel. I strongly advise acquaintances who ask me about it against going for atlas correction. Furthermore: I did not give Atlantomed permission to contact me via email after the treatment was completed or to use my data (name, email address, treatment date, treating practice).				
Original: Ich finde es furchtbar, wie atlantomed auf der Webseite schwer kranken Menschen suggeriert, die Atlaskorrektur wäre eine sichere Methode, um ihre Schmerzen zu lindern. Im Gegenteil sind Manipulationen an der Halswirbelsäule - noch dazu von nicht medizinisch ausgebildetem Personal - gefährlich und haben das Potenzial, bestehende Beschwerden weiter zu verschlimmern oder neue Beschwerden erst zu verursachen. Natürlich hat die Atlaskorrektur auch bei mir zu keinerlei Verbesserung geführt - wie sollte sie auch? Heute weiß ich es besser, damals war ich einfach verzweifelt und habe nach jedem Strohalm gegriffen, um meine Schmerzen loszuwerden. Sie bereichern sich an der Hilflosigkeit kranker Menschen. Das ist grausam. Bekannten, die mich danach fragen, rate ich dringend davon ab, zur Atlaskorrektur zu gehen. Außerdem: Ich habe Atlantomed nicht die Erlaubnis gegeben, mich nach Abschluss der Behandlung per E-Mail zu kontaktieren oder meine Daten (Name, E-Mail-Adresse, Behandlungsdatum, behandelnde Praxis)

Translation: Good morning, I thank you for the opportunity to give my opinion. I did not have a good experience, not because I didn't see clear improvements (which is normal after 1 or 2 sessions) but because I was disappointed when I discussed with your operator, telling him that I felt the same as before. He simply replied that it wasn't for me, without considering reasons or thinking that after one session it might be normal. In short, after paying 300fr for 1 hour of work (if I remember correctly), I did not find the response professional. Original: Buongiorno,Vi ringrazio per l'opportunità di dare un mio parere. Non mi sono trovata per niente bene e non perché nn ho avuto netti miglioramenti (normalissimo dopo 1/2 sedute)ma in quanto ci sono rimasta male, quando mi confrontai con il vostro operatore,dicendogli che mi sentivo come prima.Lui di tutta risposta mi disse che non era per me.Senza valutare motivi e pensare che dopo una seduta forse poteva essere normale.Insomma dopo 300fr per 1ora di lavoro (se non ricordo bene).come risposta non l'ho trovata professionale.

Translation: I visited Mr. Michailidis because of my migraines. Unfortunately, the migraines have remained unchanged since the treatment. However, I have noticed that I feel better when I mainly eat vegan, which unfortunately is not always easy for me. I can highly recommend Mr. Michailidis. He has a pleasant manner, good know-how, and practices his profession with passion. Atlas therapy cannot heal everything, but it is a component of a holistic treatment. Original: Ich war wegen Migräne bei Herrn Michailidis. Leider ist die Migräne seit der Behandlung unverändert. Ich habe aber festgestellt, dass es mir besser geht, wenn ich vorwiegend vegan esse, was mir leider nicht immer so leicht fällt. Ich kann Herrn Michailidis aber sehr weiterempfehlen. Er hat eine angenehme Art, ein gutes know how und übt mit Herzblut seinen Beruf aus. Alles kann eine Atlastherapie auch nicht heilen, aber es ist ein Baustein einer ganzheitlichen Behandlung.

Translation: After the first treatment, I almost thought I was healed. There were still occasional twinges in the cervical spine. That's why I subjected myself to the second treatment, which unfortunately made everything worse. The second treatment was completely unnecessary in hindsight. I can no longer move my head properly. The process of the treatments was good, during the second appointment I was there for a maximum of 20 minutes. In the first treatment, we were busy with data collection and system errors, but we reached the 1-hour mark. Original: Nach der 1. Behandlung dachte ich fast, ich bin geheilt. Es waren noch hier und da mal Zwickerle an der HWS. Deshalb habe ich mir die 2. Behandlung angetan, womit leider alles schlimmer wurde. Die 2. Behandlung war im Nachgang völlig überflüssig. Ich kann nun meinen Kopf gar nicht mehr richtig bewegen. Der Ablauf der Behandlungen war gut, beim zweiten Termin war ich maximal 20 Minuten da. In der ersten Behandlung waren wir viel mit Datenaufnahme und Systemfehler beschäftigt aber die 1 Stunde haben wir erreicht.

Translation: I am not satisfied with the result. Since the treatment, I've constantly had shoulder pain. I came for the treatment because of my migraines. Now I've also got additional pain. Three weeks after the first treatment, I had a lumbago. Since then, I've visited two orthopedists and two physiotherapists. I now wear foot supports to correct my poor posture. The migraine attacks are still there. The number of them has minimally decreased, but the intensity has remained the same. If someone is older, like me (53 years), they must think a thousand times whether this treatment is an option. The body doesn't put up with everything. Best regards. Original: Ich bin nicht zufrieden mit dem Ergebnis. Seit der Behandlung habe ich ständig die Schulterschmerzen. Zur Behandlung kam ich wegen meiner Migräne. Jetzt habe ich noch dazu zusätzliche Schmerzen bekommen. Drei Wochen nach der ersten Behandlung hatte ich Hexenschuss. Seit dem sind hinter mir die Besuche von zwei Orthopäden, zwei Physiotherapeuten. Ich trage jetzt die Fußunterlage zum Korrigieren von meiner schiefen Körperhaltung. Die Migräne-Anfälle sind immer noch da. Die Anzahl davon ist minimal gesunken, Intensität ist aber gleich geblieben. Wenn jemand älter ist, so wie ich (53 J.), muss tausend Mal überlegen, ob diese Behandlung in Frage kommt. Der Körper macht nicht alles mit. Liebe Grüße.

🇬🇧 Translation: Dear Atlantomed, I was satisfied with the work done by the Therapist, unfortunately, the feeling of lightness and well-being that I initially experienced dissipated over the following six months, and the migraines, shoulder, and cervical pains have returned. It should be noted, however, that my shift work and the protrusions of the cervical vertebrae confirmed by the MRI, the details of which I had also sent you, do not help in regaining full well-being. I am still glad to have undergone the treatment at your facility. Thank you, Regards, and Happy Easter.

Va comunque sottolineato che il mio lavoro da turnista e le protusioni delle vertebre cervicali confermate da risonanza magnetica del quale esito Vi avevo anche inviato gli estremi, non aiutano a ritrovare il pieno benessere. 🇬🇧 Translation: I came to you following a whiplash that had caused me to lose complete verticality and extension of the neck and entire spine, and also caused severe spasms, dizziness, and nausea. I am very satisfied with the treatment. Tamara was very kind and professional. In fact, when I get the chance, I speak highly of you to anyone who asks or has a problem similar to mine. I saw the improvement immediately. However, I haven't resolved all the other issues, like the malocclusion and a rotated hip, but I already knew that. The best result, also because it remained unchanged, was the realignment of the head to the neck. Even in photos from when I was little, you could see it was tilted to one side. After the treatment and check-up, my neck was straight and very elongated again, as was the rest of my spine, just like it was before the whiplash. Certainly, after the first treatment, I felt really good, I was reborn. Then, after a few weeks, I turned quickly and hit my head against an obstacle.				
🇮🇹 Original: Sono venuta da voi a seguito di un colpo di frusta che mi aveva fatto perdere la completa verticalità e l'allungamento del collo e di tutta la colonna, ma anche fatto venire forti spasmi, vertigini e nausea. Sono molto soddisfatta del trattamento. Tamara è stata molto gentile e professionale. Anzi, quando mi capita, parlo bene di voi con chi me lo chiede o ha un problema simile al mio. Ho visto il miglioramento immediatamente Tuttavia, non ho risolto tutti gli altri problemi, come la malocclusione e un'anca ruotata, ma già lo sapevo. Il risultato migliore, anche perché invariato, è stato il riallineamento della testa al collo. Perfino nelle foto di quando ero piccola si vede che era inclinata da un lato. Il collo dopo il trattamento e il controllo, era tornato dritto e molto allungato, come il resto della colonna, come lo era prima del colpo di frusta. Certo, dopo il primo trattamento stavo decisamente bene, ero rinata. Poi dopo qualche settimana, mi voltai nella fretta e urtai con la testa un ostacolo

 Translation: I wanted to thank with all my heart the founder of this method, Alfredo Lerro. Unfortunately, my correction was not 100% resolute because mine was more of a jaw problem, but he still directed me to a professional, and I am improving day by day. I recommend this experience to everyone. I used to vomit about once a month, it was debilitating, well, after the correction I haven't had this problem anymore. If it weren't for COVID, I would have definitely come for a session to relax the muscles. You have been a blessing for me! With love, Lucy  Original: Volevo ringraziare con tutto il cuore il fondatore di questo metodo *****. Purtroppo la mia correzione non è stata risolutiva al 100 % xké il mio era più un problema mandibolare, ma sempre lui mi ha indirizzato verso un professionista e sto migliorando di giorno in giorno. Consiglio Quest esperienza a chiunque. Io vomitavo all'incirca una volta al mese, era una cosa invalidante, beh, dopo la correzione non ho più avuto questo problema. Se non fosse x il covid sicuramente sarei venuta a fare una seduta x rilassare la muscolatura. Siete stati una benedizione x me! Con affetto, Lucy

 Translation: Hello, for the moment I do not intend to return to you, especially because I live a bit far away in the province of Florence, but I assure you that I am very satisfied with the treatment. I have given you a lot of good publicity and I know that some of my acquaintances have come to you. You have brought me back to life, no more dizziness, pain, or nausea when tilting my head back to look up. A dream!! If I had one of your centers closer to me, I would certainly come every now and then to relieve tension in my neck and shoulders. Inevitably, these form as I am a professional seamstress, and between posture and stress from responsibility, sometimes in the evening I am stiff. But nothing compared to the issues I had before the treatment. It would be nice if you opened a center in Tuscany as well, there would be a lot to do here. I cordially greet you and thank you immensely☺☺  Original: Salve, per il momento non intendo tornare da voi, soprattutto perché sono un pò lontano abitando in provincia di Firenze, ma vi assicuro che sono rasta molto soddisfatta del trattamento. Vi ho fatto tanta buona pubblicità e so che qualcuno dei miei conoscenti è venuto da voi. Mi avete rimesso al mondo, niente più vertigini né dolori e nausea nel piegare la testa indietro per guardare in alto. Un sogno!! Se avessi un vostro centro più vicino a me certamente verrei ogni tanto per sciogliere le tensioni a collo e spalle. Inevitabilmente queste si formano in quanto faccio la sarta professionista e tra postura e stress da responsabilità a volte la sera sono incriccata. Ma niente a che vedere con i disturbi che avevo prima del trattamento. Sarebbe bello se apriste un centro anche in Toscana, ci sarebbe molto da fare qui. Cordialmente vi saluto e vi ringrazio infinitamente☺☺

 Translation: I am thoroughly satisfied with the treatment by Mr. Straub. I cannot imagine a better treatment. I find Mr. Straub to be sensitive and extremely knowledgeable, as demonstrated by his excellent explanations during the introduction to the atlas treatment regarding the procedure. He conducted the treatment with what I perceived as great confidence. It was the very best "physiotherapy" I have ever experienced and has improved my bodily perception in ways I could never have imagined. The constant headaches are a thing of the past. My entire skeleton has realigned itself - or so it seems to me; this is associated with a physical well-being I have never experienced before. For me, this treatment was - and still is - a gift from heaven. My deepest and heartfelt thanks!  Original: Ich bin mit der Behandlung durch Herrn Straub umfassend zufrieden. Eine bessere Behandlung kann ich mir nicht vorstellen. Herrn Straub empfinde ich als feinfühlig, fachlich überaus kundig, was er u.a. in der Einführung zur Atlasbehandlung durch hervorragende Erläuterungen bezüglich des Vorgehens gezeigt hat. Mit einer, wie ich es empfunden habe, größeren Sicherheit hat er die Behandlung durchgeführt. Das war das Allerbeste, was ich an "Physiotherapie" jemals erlebt habe und hat mein Körperempfinden so sehr verbessert, wie ich mir niemals hätte vorstellen können. Die ständigen Kopfschmerzen sind Vergangenheit. Mein ganzes Skelett hat sich neu ausgerichtet - so kommt es mir vor; dies ist mit einem, noch nie erlebten, körperlichen Wohlfühl verbunden. Für mich war diese Behandlung - und ist es noch - ein Geschenk des Himmels. Meinen tiefempfundenen und herzlichen Dank!

 Translation: Good afternoon, I humbly apologize for not contacting you sooner. I was planning to have the second session right after the Christmas holidays, as recommended by Ms. Martino. Unfortunately, various personal situations arose that prevented me from having the second session! First, my father passed away, then I became unemployed; consequently, I had to sort out both his and my issues. Now I am back home, where my daughter, unfortunately, has Crohn's disease. Frankly, until the pandemic situation improves, I will not come for the second session. Nevertheless, as I told Ms. Martino at the end of the session, I felt "different" in a positive way; I said the same thing two years ago to Ms. Diomede. Because it's the truth. I can't wait to have the second session to get myself sorted out! Greetings and Happy Easter to all the employees of Atlantomed.  Original: Buon pomeriggio, chiedo umilmente scusa per non avervi contattato prima, pensavo di fare la seconda seduta subito dopo le festività natalizie, come consigliato dalla Signora Martino. Purtroppo le varie situazioni che sono venute a crearsi, a livello personale, hanno fatto sì che non abbia potuto fare la seconda seduta! Per primo è venuto a mancare mio padre, poi sono rimasto disoccupato; di conseguenza ho dovuto sistemare le sue e le mie problematiche. Ora sono tornato a casa, dove mia figlia, purtroppo ha il morbo di Chron. Francamente, finché non migliorerà la situazione pandemica, non verrò a fare la seconda seduta. Comunque sia, come detto subito alla signora Martino a fine seduta, mi sentivo "diverso" in senso positivo; la stessa cosa lo dissi 2 anni fa alla signora *****. Perché è la verità. Non vedo l'ora di fare la seconda seduta per potermi sistemare! Saluti e buona Pasqua a tutti i dipendenti di Atlantomed.

Translation: I was fully satisfied. I solved the cervical problem that had been tormenting me for years. As of today, 2021, I haven't had any relapses, and the headache is just a memory. Thank you. In 2019, I accompanied two people to undergo the same treatment and noticed some differences. The treatment room was definitely smaller and partially shared, which I did not appreciate. Additionally, the therapist did not provide some information which, in my experience, was essential, such as not driving after the treatment, not making efforts like carrying weights, resting for 2 or 3 days, and drinking plenty of water or herbal teas. These things that Bianchi had strongly recommended to me were not mentioned, and the results for these people were not as complete as mine. In any case, my evaluation remains very positive, and if the problem should reoccur, I will definitely return. Thank you and best regards. Marta Original: Sono rimasta pienamente soddisfatta. Ho risolto il problema di cervicale che mi tormentava da anni. Ad oggi 2021 non ho avuto più ricadute e il mal di testa è un ricordo. Grazie. Nel 2019 ho accompagnato due persone a fare lo stesso trattamento e ho notato alcune differenze. Stanza del trattamento decisamente più ristretta ed in parziale condivisione, cosa che non mi ha fatto piacere., Inoltre nn sono state date dal terapeuta alcune informazioni che x la mia esperienza sono state invece fondamentali e cioè nn guidare dopo il trattamento nn fare sforzi del tipo nn portare pesi stare a riposo x 2 o 3 giorni, bere molto acqua o tisane. Ecco qs cose che ***** mi aveva raccomandato caldamente nn sono state dette e i risultati su qs persone nn sono stati così completi come su di me. In ogni caso la mia valutazione resta molto positiva e se il problema dovesse ripresentarsi tornerò sicuramente. Grazie e cari saluti. Marta

On the contrary, it has worsened, but I do not attribute this to the Atlas therapy. I absolutely recommend the therapist! Marcus has a wonderful way of engaging with the patient and possesses a broad holistic knowledge. Original: Ich bin weitestgehend zufrieden, habe gute Fortschritte und Erleichterung in so einigen Bereichen. Leider erfüllte sich meine Hoffnung nicht, dass auch der Tinnitus sich verringert. Dieser hat sich, im Gegenteil, verschlimmert, was ich aber keineswegs auf die Atlastherapie zurückführe. Den Therapeuten empfehle ich absolut! Marcus hat eine wundervolle Art auf den Patienten einzugehen und ein breites holistisches Wissen.

 Translation: The treatment had an exhilarating outcome. It didn't solve 100% of my neck and upper back heaviness issues, as I don't think they depend entirely on the Atlas, but there was a clear and noticeable improvement. The second appointment, where there was a massage of the neck area, left me a bit puzzled, disrupting things a bit. It left me with neck pain for quite some time. Overall, though, I highly recommend the treatment.				
 Original: Il trattamento ha avuto un esito esaltante. Non ha risolto al 100% i miei problemi di cervicale e pesantezza di spalle e parte superiore schiena, questo perché non penso dipendano interamente dall'Atlante, ma c'è stato un miglioramento netto e sensibile. Il secondo appuntamento in cui c'è stato un massaggio della zona cervicale mi ha lasciato un po' perplesso scombinando un po' le cose. Mi ha lasciato per tanto tempo con dolori alla zona cervicale. Nel complesso, però, consiglio vivamente il trattamento.

Translation: The treatment was good, the session unpleasant. I "had to" give a five-star Facebook review for him in front of the therapist's eyes. And he tried to sell me expensive additional treatments in an uncomfortable way. As a student, I just managed to save up for the atlas correction, and when I said I couldn't afford a treatment for several hundred euros, the only comment was that I should know what my health is worth to me. But that way, I wouldn't get healthy.

Translation: In June, it will be 6 years since the treatment, and I would like to have a check-up to assess if the atlas has remained in the correct position. I'm experiencing the same symptoms as before the correction again, occasional headaches, neck pain, and stiffness in the neck and shoulders. As soon as the various COVID restrictions are lifted, I would like to have another check-up, and if everything is fine, even just a decompression wouldn't hurt! Good work.				
Original: A giugno sono 6anni dal trattamento, mi piacerebbe fare un controllo per valutare se l'atlante è rimasto nella posizione corretta, sto avendo di nuovo gli stessi sintomi prima della correzione, saltuari mal di testa, cervicale e irrigidimento collo e spalle.  Translation: Good morning. After the treatment, I was feeling very well for a while, but unfortunately, I fell on the ice and hit my head (another whiplash), so I would need a new appointment with you. Unfortunately, my muscles were still not strong enough a year and a half after the treatment, and perhaps a partial misalignment from the trauma may have occurred because I am again experiencing symptoms like before the treatment. The fact that you contacted me, I take it as a sign, and I ask you to give me the opportunity to return for a check-up and treatment. In case of your positive response, I will contact you for an appointment. Thank you very much.

Translation: The atlas correction itself was very good and I am very satisfied with the result. However, two years later, I was diagnosed with slipped vertebrae in the lumbar region, which I already had at the time of the treatment and had mentioned the symptoms without knowing what was going on. Asymmetries were clearly visible in the measurement images. In hindsight, I would have expected the therapist to recognize this or at least address it, perhaps recommending further clarification. I missed the holistic perspective there. Original: Die Atlaskorrektur an sich war sehr gut und mit dem Ergebnis bin ich sehr zufrieden. Allerdings wurden zwei Jahre später Gleitwirbel im Lendenwirbelbereich bei mir festgestellt, die ich zur Zeit der Behandlung bereits hatte und von deren Beschwerden ich erzählt habe, ohne zu wissen was da los ist. Auf den Vermessungsbildern waren Asymmetrien deutlich erkennbar. Im Nachhinein hätte ich vom Therapeuten erwartet, dass er dies erkennt oder zumindest anspricht, um z.B. eine weitere Kärung zu empfehlen. Der ganzheitliche Blick hat mir da gefehlt.

Translation: I have tried the vertebra realignment a total of 4 times without the desired results, but I appreciate your kindness and humanity in treating people with courtesy. Despite everything, I believe this method can help many people with symptoms similar to mine, as I have personally experienced its benefits for a full 20 days with remarkable results. However, as the therapist mentioned, the cause lies in the loose muscles surrounding the atlas that are unable to maintain the alignment. In almost two years since the last treatment, I can testify to a degeneration of the symptoms that has brought me back to the starting point, affecting my shoulders, cervical area exponentially, and the frontal region of my head. I regularly take medication and cannot find a way out of the problem, aware that my pain originates in the area of intervention. Should there be any possibility of new techniques or solutions in your field, I am always available for further treatments. Regards.

🇮🇹 Original: Ho provato il riallineamento della vertebra per ben 4 volte senza i risultati sperati è provando la vostra cordialita' ed umanita' nel trattare con cortesia le persone. Nonostante tutto credo che questo metodo possa aiutare molte persone con i miei stessi sintomi, in quanto io stesso ho sperimentato i suoi benefici per ben 20 giorni con risultati notevoli. Ma come detto dal terapeuta la causa risiede nella muscolatura lassa che circonda l'atlante che non è in grado di mantenere l'allineamento. In quasi due anni dall'ultimo trattamento posso testimoniare una degenerazione dei sintomi che mi ha riportato al punto iniziale interessando le spalle la cervicale in modo esponenziale e la regione frontale del capo. Assumo regolarmente farmaci e non trovo una via d'uscita al problema consapevole che i miei dolori hanno origine nella zona di intervento. Qualora ci fosse la possibilita' di nuove tecniche o soluzioni nel vostro campo, resto sempre a disposizione per ulteriori trattamenti. saluti.

Translation: I had researched on the internet about what atlas correction is all about, because I had a terrible vertigo that kept me bedridden for several days. Additionally, I had long had problems lying flat (without a pillow) on the floor or, for example, mounting something under a vehicle with my head lying on the ground. I would immediately feel nauseous and had to get up quickly. I then contacted Mr. Moers and made an appointment with him online. He explained everything to me in detail and then determined that my atlas vertebra was significantly twisted. He corrected it, and from the first moment, all symptoms were gone. The second follow-up treatment confirmed that everything is where it belongs, and I have no complaints anymore. I can only highly recommend all of this, especially Mr. Moers, who took a lot of time and mastered it flawlessly. I can wholeheartedly recommend this treatment and am Original: Ich hatte mich im Internet informiert was es mit der Atlaskorrektur auf sich hat, denn ich hatte einen fürchterlichen Drehschwindel, der mich mehrere Tage ans Bett fesselte. Außerdem hatte ich schon länger Probleme mich flach (ohne Kissen) auf den Boden zu legen oder z.B. unter einem Fahrzeug etwas zu montieren mit dem Kopf auf dem Boden liegend. Es wurde mir sofort schlecht und ich musste schnell wieder aufstehen. Ich nahm dann mit Herrn Moers Verbindung auf und machte online einen Termin bei ihm. Er hat mir alles ausführlich erklärt und dann festgestellt, dass mein Atlaswirbel erheblich verdreht ist. Er hat das dann gerichtet und ab dem ersten Moment waren alle Beschwerden weg. Die zweite Behandlung zur Nachkontrolle hat bestätigt, dass alles dort ist wo es hingehört und ich habe keinerlei Beschwerden mehr. Ich kann das alles nur sehr empfehlen, vor allem Herrn Moers, der sich sehr viel Zeit genommen hat und das wirklich tadellos beherrscht.  Translation: I felt great at first, then I started feeling unwell. I returned in September to reposition the atlas, and it seemed like I was getting better. As of today, I have terrible neck pain and a wrecked back. I don't blame the sessions; it's probably just me being a wreck. On the positive side, I no longer have the hump. Unfortunately, I have those insane headaches again, and not just during my cycle. Have a good day.  Original: Sono stata benissimo subito, poi ho cominciato a stare male. Ritornai a settembre per riposizionare l'atlante, sembrava che stessi meglio. Ad oggi ho una cervicale bruttissima e una schiena distrutta. Non do la colpa alle sedute, probabilmente sono io che sono distrutta. Di positivo non ho più la gobba. Purtroppo ho di nuovo quei mal di testa pazzeschi e non solo durante il ciclo. Buona giornata

 Translation: I haven't had any improvement for my migraine, it was excruciating and it took me months to recover my strength. I had reactive lymph nodes on my neck after the session. Even now, I can't get massages because of the discomfort I had for months. A real disaster. I definitely wouldn't recommend it. The therapist was kind and it's certainly not his fault, but the type of treatment performed, too violent!!  Original: Non ho avuto nessun miglioramento per la mia emicrania, è stato massacrante e mi ci sono voluti mesi per recuperare le forze. Ho avuto linfonodi reattivi sul collo dopo la seduta. Tuttora non riesco a farmi massaggiare per il fastidio che ho avuto per mesi. Un vero disastro. Non lo consiglierei assolutamente. Il terapeuta è stato gentile e non dipende sicuramente da lui, ma dal tipo di trattamento che viene eseguito, troppo violento!!

Translation: I'm sorry to start like this, but I believe the main issue is that, from how the method is advertised on the internet, it seems like there's something miraculous about it, and this attracted me during a difficult period. I can't say it didn't do anything for me, but certainly without the physical therapy I did afterward, which has nothing to do with the method, I would never have been able to cope with my cervical problems as I am doing now. In conclusion, it's a method I recommend to those who have already tried long physiotherapies and can't find a solution. But if you have to take a long journey, as I did, and haven't yet tried a rehabilitative path like Mezieres or similar, then I don't recommend it. Original: Mi spiace iniziare così, ma credo che il principale problema sia che, da come il metodo è pubblicizzato su internet, pare che ci sia qualcosa di miracoloso e questo mi ha attirato in un periodo di difficoltà. Non posso affermare che non mi abbia fatto nulla ma sicuramente senza la fisioterapia che ho fatto dopo, che non c'entra nulla con il metodo, non sarei mai riuscito a convivere con i miei problemi di cervicale come sto facendo in questo momento. Tirando le somme, è un metodo che consiglio a chi ha già provato lunghe fisioterapie e non riesce a venirne a capo. Ma se si deve fare un lungo viaggio, come ho fatto io, e ancora non si è provato a fare un percorso riabilitativo tipo mezieres o simili, allora non lo consiglio

🇬🇧 Translation: Through the Adlas therapy, my life became worth living again. I had severe dizziness, which eventually ended with seizures, along with headaches and a sensation of smoking in my head. I visited various doctors, but no one could help me; it was hell. I was labeled as mentally ill, and none of the doctors believed me. I even had a spinal tap, and everything was fine. I was desperate. Until I came across Adelanto tec. Mr. Hans Ulrich Straub. I immediately got in touch with him; he was very nice on the phone and reassured me a lot during our conversation. I can only say that Mr. Straub gave me my life back; I trust him completely. Since then, no distance is too far for me; if something hurts, I am with Mr. Straub in Bietigheim-Bissingen. I can recommend him one hundred percent; he understands his profession. I am infinitely grateful to him for that.

Translation: My experience was negative. Unfortunately, 4 days after the treatment, my symptoms (dizziness and nausea) started to worsen significantly, and I also had terrible pain in the masseter. After the second treatment, you said the atlas had shifted again and that maybe I had exerted myself; you repositioned it, but I got worse and even developed tinnitus in my right ear and struggled to drive... After 3 tough years, I'm starting to feel better. It would have been better to stick with the initial damage and keep my slight dizziness... Original: La mia esperienza è stata negativa. Purtroppo dopo 4 giorni dal trattamento ho iniziato a peggiorare e di molto i sintomi che avevo (sbandamenti e nausea) in più dolore tremendo al massetere. Dopo il secondo trattamento avevate detto che l'atlante si era ancora spostato di nuovo e che forse avevo fatto sforzi, avete riposizionato ma sono ancora peggiorato e mi è venuto pure un'acufene orecchio dx e faticavo pure a guidare... Dopo 3 anni duri inizio a stare meglio, era meglio stare ai primi danni e tenermi i miei leggeri sbandamenti...

Translation: After the treatment, not only did I not resolve any of my postural and temporomandibular issues, but I found myself suffering from tinnitus and hyperacusis, which led me to be unable to sleep at night and not even hear well during the day due to the high volume of the tinnitus. All of this resulted in me being unable to work for several months and having to move house because I was no longer able to live alone in my beloved silence. As an inevitable consequence, I suffered from a depressive syndrome that I had to treat with antidepressants and psychotherapy, and I had to embark on a sound journey with a sound engineer, which led to a considerable reduction in the initial volume... obviously with a significant outlay of money. You have caused me irreparable harm, cursed be the day I met you. Original: Dopo il trattamento, non solo non ho risolto nessuno dei miei problemi posturali e temporocclusali, ma mi sono ritrovata a soffrire di acufeni e iperacusia che mi hanno portata a non poter più dormire la notte e a non poter nemmeno sentire bene di giorno a causa del volume elevato degli acufeni. Tutto ciò mi ha portata a non poter più svolgere la mia attività lavorativa per diversi mesi e a dovermi trasferire di casa perchè non più in grado di vivere da sola nel mio amato silenzio. Come inevitabile conseguenza ho sofferto di una sindrome depressiva che ho dovuto curare con antidepressivo e psicoterapia e ho dovuto intraprendere un percorso sonoro con un ingegnere del suono che mi ha portata ad un discreto calo del volume iniziale....ovviamente con un esborso di denaro considerevole. Mi avete creato un danno irreparabile, maledetto il giorno in cui vi ho incontrato.

Unfortunately, also due to reasons related to my lifestyle, I should periodically repeat the treatment to maintain the benefits I experienced in the short term right after the treatments. However, at that point, it would become excessively difficult and expensive, so even though it is a very effective treatment, it cannot solve my problem. What a pity! Original: Davide Colombo è un professionista bravissimo, serio e preparato. Mi sono trovata molto bene e ho avuto benefici immediati. Purtroppo, anche per ragioni collegate al mio stile di vita, dovrei periodicamente ripetere il trattamento per mantenere costanti i benefici avuti nel breve periodo subito dopo i trattamenti, ma a quel punto diventerebbe eccessivamente difficile e costoso, quindi, pur essendo un trattamento molto valido, non può risolvere il mio problema.  Translation: I sincerely thank Tamara, who, in addition to being a beautiful girl, has excellent qualities: professionalism, kindness, and understanding! I had to undergo 2 sessions, probably because I was among the severe cases ☹️! It took me a while to improve, but 2 years later I am a new person. Before knowing Atlantomed and therefore before having the session at your center, I had a debilitating headache almost every day for about 8 years, and I no longer had a life of my own because my life was staying at home filled with painkillers that often didn't work. Now, however, the headaches are much less frequent (now I get one once a month corresponding to the menstrual cycle) and certainly much less severe than before. THANKS TO THESE 2 SESSIONS I STARTED LIVING AGAIN, seeing small improvements day by day. Thank you Atlantomed, and thanks again to Tamara.				
 Original: Ringrazio di cuore Tamara, che oltre ad essere una ragazza bellissima ha ottime qualità: professionalità, gentilezza e comprensione! Io ho dovuto fare 2 sedute, probabilmente ero tra i casi gravi ☹️! Ciò messo un po' a migliorare, ma distanza di 2 anni sono una persona nuova. Prima di conoscere Atlantomed quindi prima di fare la seduta nel vostro centro, avevo mal di testa invalidante quasi tutti i giorni da circa 8 anni, non avevo più una vita mia perché la mia vita era stare in casa imbottita di antidolorifici che spesso non facevano effetto. Ora invece i mal di testa sono molto meno frequenti (ora mi viene una volta al mese in corrispondenza del ciclo mestruale) e sicuramente molto meno forti di prima. GRAZIE A QUESTE 2 SEDUTE IO HO RICOMINCIATO A VIVERE vedendo piccoli miglioramenti giorno dopo giorno. Grazie Atlantomed, e di nuovo grazie a Tamara.

Translation: I underwent the treatment with much skepticism but almost in desperation due to the constant headaches. Today, several years later, I can only be satisfied as I no longer suffer from those debilitating headaches. Unfortunately, they do occasionally return; after all, my back is now a "Picasso," so some problems of various kinds do come back. Regarding the facility and the therapist, I was very satisfied. Original: Ho fatto il trattamento con molto scetticismo ma in preda quasi alla disperazione per i costanti mal di testa. Ad oggi a distanza di diversi anni non posso che essere soddisfatto dato che non soffro più di quei mal di testa invalidanti. Purtroppo ogni tanto si ripresentano, d'altronde la mia schiena ormai è un "picasso" dunque qualche problema di vario genere ritorna. Riguardo alla struttura ed al terapeuta sono stato molto soddisfatto.

Translation: Welcomed by friendly staff. Davide Colombo was able to put me at ease. Regarding the treatment: almost 3 years after the treatment, I noticed a reduction in the frequency of migraine attacks. However, I must say that shortly after the treatment, I discovered that I suffer from hypertension and therefore started taking the pill. I can't say for sure whether the decrease in migraines is due to the treatment, the pill, or both. Anyway, for me, the important thing is not to suffer as much as before, so whether it's for one reason or another, I consider myself satisfied. Thank you Roberto Original: Accolto da personale cordiale. Davide Colombo ha saputo mettermi a mio agio. Riguardo il trattamento: a distanza di quasi 3 anni dal trattamento ho notato una riduzione sulla frequenza degli attacchi di emicrania. Devo però dire, che poco tempo dopo il trattamento, ho scoperto di soffrire di ipertensione e ho iniziato quindi a prendere la pastiglia. Non saprei dire con certezza se il calo dell'emicrania sia da imputare al trattamento, alla pastiglia o ad entrambe le cose. Comunque per me l'importante è non soffrire più come prima, quindi che sia per un motivo o per un altro mi reputo soddisfatto. Grazie Roberto

Translation: Having spent an exorbitant amount at your Center for the Atlante treatment, I have not experienced any benefit to date and it seems like I have wasted my money. I haven't come back, and I have never reached out to you, because for other visits or treatments the cost would have been truly unsustainable. In my opinion, you should have contacted me a few years ago for this questionnaire, perhaps with another session, not at my expense, I might have been able to resolve something. In conclusion, it was a total of 350 francs spent. The staff is very kind and courteous. Best regards Original: Avendo speso presso il Vs Centro una cifra esorbitante per il trattamento dell'Atlante ad oggi non ho avuto nessun giovamento e mi sembra aver speso inutilmente i soldi. Non sono venuta altre volte, e non vi ho mai interpellato, perché per altre visite o trattamenti la spesa sarebbe stata proprio insostenibile. Translation: Good morning, as I had already written on your Facebook profile, and you had also replied to me... unfortunately, I haven't seen any improvement, unlike my acquaintances who have resolved their issues. I don't consider your treatment invalid, but it probably didn't work in my case. You ask if I am satisfied with the physiotherapist? Honestly, no, I found them unprofessional. However, I reiterate that I do not blame anyone for my problem... which persists constantly, I live with it. Thank you and I extend my best regards. Original: Buongiorno, come avevo già scritto sul vostro profilo di Facebook, e voi mi avevate anche risposto...purtroppo non ho avuto nessun miglioramento, al contrario di miei conoscenti che hanno risolto, io non reputo il vostro trattamento non valido, ma probabilmente nel mio caso non ha funzionato, mi chiedete se sono soddisfatto del fisioterapista? Sinceramente no, l'ho trovato poco professionale. Translation: Hello, I had a great experience and felt very well. Of course, I would occasionally need some treatment; the problem is that I reside in Sicily. If you were to open something here, let me know. Anyway, I have a slight complaint regarding the therapist because the person who treated my atlas was Mr. Vittorio Fantozzi, a very patient person with my various questions, friendly, but he was the one who really relieved the headaches I had almost daily. Now it happens 3 or 4 times a year (normal). Now I have some back pain instead. If it weren't for the distance, I would surely have already come. Unfortunately, the coronavirus prevents free movement. Sorry if I went on a bit too long; I really appreciated that you care about the patients who have been to your center. I wish you all a happy and peaceful Easter. Pierluigi Risa

🇮🇹 Original: Salve, mi sono trovato benissimo è sono stato molto bene certo avrei bisogno ogni tanto qualche trattamento il problema e che risiedo in Sicilia se dovreste aprire qualcosa qui fatemi sapere, comunque ricordate un pò male per quanto riguarda il terapista perchè chi mi ha trattato l'atlante era il Sig. ***** persona molto paziente alle mie più svariate domande, simpatica ma colui che mi ha fatto passare realmente il mal di testa che avevo quasi giornalmente ora mi capita 3 ho 4 volte l'anno,(normalità) ora ho invece qualche mal di schiena se non era per la distanza sarei sicuramente già venuto purtroppo il corona virus impedisce di muoversi liberamente scusate se mi sono dilungato un pò troppo mi ha fatto molto piacere che vi interessate dei pazienti che sono stati presso il vostro centro vi auguro a tutti una felice e serena pasqua. 🇬🇧 Translation: Nothing to say about the therapist, kind, helpful, friendly. As for the final result, it's a disaster. I came for cervical issues and consequently stomach problems. The cervical issue has worsened, and my right shoulder (operated on many years ago) is always painful day and night. I must specify that since the surgery, I have NEVER had shoulder pain; the pains started after the treatment with you. Unfortunately, I've had these pains for 3 years and can't resolve them. Don't tell me it could be a mouth issue as I was previously told because the shoulder was never painful before the treatment. Besides the physical pain, I am truly disheartened.				
🇮🇹 Original: Nulla da dire al terapista, gentile, disponibile, cordiale. Per quanto riguarda il risultato finale è un disastro. Sono venuto per problemi alla cervicale e di conseguenza allo stomaco. La cervicale è peggiorata, inoltre ho la spalla destra (operata parecchi anni fa) sempre dolorante di giorno e di notte, preciso che da quando ho effettuato l'intervento non ho MAI avuto dolore alla spalla, i dolori li ho da quando ho fatto il trattamento da voi. Purtroppo sono 3 anni che ho questi dolori e non riesco a risolverli. Non mi si venga a dire che potrebbe essere un problema alla bocca come mi è stato detto in precedenza perché la spalla non era mai stata dolorante prima del trattamento. Oltre al dolore fisico, sono veramente amareggiato.

 Translation: Yes, I would like to contextualize the previous evaluations, the treatment satisfied me, but it was not as decisive as for others, and I then tried to act on other fronts (especially diet) to further improve my health by cutting out carbohydrates. At the moment, I cannot say that I am in full health, and having unfortunately had physical confrontations, I have the doubt, however unlikely, that the atlas may have become misaligned again, although everything was fine at the follow-up visit (the confrontations occurred after the follow-up visit). So to conclude, perhaps it would be advisable for me to have another check-up to dispel any doubts. Greetings to everyone, especially to Gramuglia and Diomedes who took particular care of me.				
 Original: Si, vorrei contestualizzare le precedenti valutazioni, il trattamento mi ha soddisfatto, però non è stato risolutivo come per altri, ed ho poi cercato di agire su altri fronti (soprattutto l'alimentazione) per migliorare ulteriormente la mia salute, togliendo i carboidrati. Al momento non posso dire di essere in piena salute, e avendo avuto purtroppo degli scontri fisici, mi è venuto il dubbio, per quanto improbabile, che possa essersi nuovamente mal posizionato l'atlante, sebbene alla visita di controllo tutto risultò a posto (gli scontri sono avvenuti dopo la visita di controllo). Quindi per concludere, forse mi converrebbe farmi rivedere per scongiurare ogni dubbio. Un saluto a tutti, in particolare a ***** e ***** che si sono occupati più particolarmente di me.

Translation: I had hip pain and got through the first part of the day with terrible pain. After the first treatment by one of your employees (whose name I can't remember now), my pain practically disappeared. I was also wearing a lift/insole that had become about 2cm thick (so it increased in thickness over time). After your intervention, I no longer have pain, I've removed the insole, and I've gone back to running and doing other activities. Additionally, I no longer get a headache that used to occasionally paralyze half my face. I've told several people about my experience with you, and I hope you continue to do your work with passion because it is very effective. Thank you. Original: Io avevo dolore all'anca ed arrivavo alla prima parte della giornata con un dolore assurdo. Dopo il primo trattamento fatto da un vostro dipendente (il cui nome adesso non ricordo), il mio dolore è praticamente scomparso. Portavo anche un rialzino/plantare ormai diventato di circa 2cm (quindi aumentava di spessore con il passare del tempo). Dopo il vostro intervento adesso non ho più dolore, ho rimosso il plantare e sono tornato a correre e fare altre attività. In più non mi viene un dolore alla testa che prima ogni tanto mi paralizzava mezza faccia. Ho raccontato a diverse persone la mia esperienza con voi e spero che il vostro lavoro lo continuiate a fare con passione perchè molto risolutivo. Grazie.

Translation: The cervical issues I had back then have persisted, although in a milder form. These problems are probably not due to an Atlas misalignment. Original: I problemi alla zona cervicale che avevo allora sono rimasti, anche se in modo più lieve. Probabilmente questi problemi non sono dovuti ad un disallineamento dell'Atlante.

Translation: I was very convinced, but already after the first session I had a strange feeling, nothing had changed. I went again and the therapist agreed with me and said it wasn't set correctly yet. I was treated again, then it should be fine. Now a lot of time has passed and my symptoms are still the same as before. Since I moved, I went to an osteopath because of my problems and everything is misaligned. Meanwhile, I am seeing a chiropractor who doesn't even know that I did Atlantotec and he independently said several times that my atlas/axis is not sitting correctly and also noticed that my cervical spine is not straight. It didn't do anything for me, it was a lot of effort for me to attend the appointments and wasted money and effort... What a pity... Original: Ich war sehr überzeugt, jedoch hatte ich bereits nach der 1.Sitzung ein komisches Gefühl, nichts hat sich verändert. Ich bin dann noch einmal hin und der Therapeut gab mir recht und es war noch nicht richtig eingestellt. Ich wurde dann noch einmal behandelt, dann sollte es gut sein. Jetzt ist viel Zeit vergangen und meine Symptome sind noch genauso da wie vorher. Da ich umgezogen bin, war ich wegen meiner Probleme bei einer Osteopathin und alles ist verschoben. Mittlerweile bin ich bei einem Chiropraktiker der auch gar nicht weiß, dass ich Atlantotec gemacht habe und er hat von sich aus mehrmals gesagt, dass mein Atlas/Axis nicht richtig sitzt und zudem viel auf, dass meine HWS auch nicht gerade ist. Mir hat das nichts gebracht, es war damals mit viel Aufwand für mich verbunden zu den Terminen zu erscheinen und herausgeschmissenes Geld und Aufwand... Schade...

Translation: I'm sorry, but despite the treatment itself, the professionalism and courtesy of all the staff left me with a good impression, unfortunately my problem has not been resolved nor has it diminished. As a migraine sufferer for many years, I always hope to find a solution to my problem. It wasn't you. If it can console you, a sad consolation, even for me, I haven't found the solution yet and I continue to use medication. Thank you anyway, I hope you manage to solve the problems of other patients. Original: Mi spiace , ma nonostante il trattamento in quanto tale , la professionalità e la cortesia del personale tutto mi abbiano lasciato un buon ricordo, purtroppo il mio problema non si è risolto e nemmeno è diminuito. In quanto emicranica da tanti anni spero sempre di trovare la soluzione al mio problema. Non siete stati voi. Se vi può consolare, triste consolazione, anche per me, la soluzione non l'ho ancora trovata e continuo ad utilizzare farmaci. Grazie comunque, mi auguro che riusciate a risolvere problema di altri pazienti.

Translation: Good day, I am quite surprised to receive a second invitation, even though I couldn't even undergo the first treatment. I traveled all the way to you in vain, only to find out that I couldn't undergo the treatment due to my eye condition related to vibrations. This was correctly identified by you, but you should have communicated on your website beforehand that this treatment unfortunately cannot be performed with certain eye conditions. Additionally, we kindly spoke for about 30 minutes, and I also paid you for this conversation. In hindsight, I found this very inappropriate of you, as I came to you for nothing (your descriptions and risks are inadequate). Sincerely, Martina Geue

Original: Guten Tag, mich verwundert schon, dass ich nochmals eine 2. Einladung bekomme, obwohl ich nicht mal die 1. Behandlung durchführen konnte. Ich bin zu Ihnen den weiten Weg umsonst gefahren, um zu erfahren, dass ich wegen meiner Augenkrankheit bezüglich Erschütterung nicht die Behandlung durchführen darf. Das wurde von Ihnen zwar richtig erkannt, aber Sie hätten im Vorfeld das in Ihrer Homepage über die Behandlung mitteilen müssen, dass bei bestimmten Augenkrankheiten diese Behandlung leider nicht durchgeführt werden kann. Zudem haben wir ja netterweise noch ca. 30 Minuten gesprochen und ich zahlte Ihnen auch dieses Gespräch. Im Nachhinein fand ich das von Ihnen sehr unangebracht, da ich umsonst zu Ihnen gekommen bin(Ihre Beschreibungen und Risiken sind unzureichend). MfG Martina *****

Translation: Mr. Mayer told me that it can take up to a year for the therapy to show its effects. Therefore, I would only rate the treatment result with 3 stars for now. However, my atlas was definitely misaligned and since the treatment, the pain has not decreased, on the contrary. Rather more. I've had a lumbago in the lumbar vertebra twice since then, and the pain in the cervical spine hasn't improved. But this may be because everything is now adjusting to the newly aligned atlas. I will also go back to Mr. Mayer. He is very nice, addresses my problem, and explains everything very well. Original: Herr Mayer hat mir gesagt, dass es bis zu einen Jahr dauern kann bis die Therapie seine Wirkung zeigt. Deswegen möchte ich das Ergebnis der Behandlung erst mit 3 Sternen beurteilen. Mein Atlas war aber definitiv verschoben und seit der Behandlung sind die Schmerzen nicht weniger geworden, im Gegenteil. Eher mehr. Ich hatte jetzt danach 2x einen Hexenschuss am Lendenwirbel und die Schmerzen an HWS sich nicht besser geworden. Aber das kann daran liegen, dass sich jetzt alles an den gerade sitzenden Atlas einspielt. Ich werde auch wieder zum Herrn Mayer gehen. Er ist sehr nett, geht auf mein Problem ein und erklärt alles sehr gut.

Translation: Hello, I underwent the first treatment and, not having experienced any benefits, I immediately communicated it. I was directly advised by the founder to have a 3D CT scan to see exactly how it was positioned. I sent the CD to your office in Chiasso, and the founder, GURU and EXPERT in the field, told me that my atlas is perfect. Obviously, not being a fool, I didn't believe your ENLIGHTENED GURU and simply went to an osteopath who checked my atlas and without hesitation said, "Look, it's displaced, you can feel it yourself with your finger." All of this FOR FREE!!!! What opinion do you think I can have of your way of working? That you only deceive people!!! But who knows, maybe one day Striscia la Notizia will come to you undercover!!!! Then you can close down. Original: Salve ho fatto il primo trattamento e non avendo avuto benefici L ho subito comunicato. Mi è stato consigliato direttamente dal fondatore di fare una tac 3D per visualizzare esattamente come fosse posizionato. Ho mandato il CD nella vostra sede di Chiasso e il fondatore GURU ed ESPERTO della materia mi dice che il mio atlante è perfetto. Ovviamente non essendo uno stupido io non c ho creduto al vostro GURU ILLUMINARE e mi sono recato semplicemente da un osteopata che mi ha controllato L atlante e senza esitazione mi ha detto " guarda è spostato lo puoi sentire anche tu col tuo dito". 🇬🇧 Translation: A suggestion from my personal experience: My fear during the treatment was that the atlas vertebra might not withstand the vibrations of the 3rd phase. Since I was unfamiliar with the treatment, I couldn't ask this question beforehand. Proactively addressing this aspect in advance could help to avoid this (if you know - unnecessary -) fear and any associated tension in the patient during the treatment. It was good that the therapist immediately reacted and briefly paused the treatment.				
🇩🇪 Original: Ein Vorschlag aus meinem persönlichen Erleben heraus: Meine Angst war, während die Behandlung durchgeführt wurde, dass der Atlaswirbel die Vibrationen der 3. Phase evtl. nicht aushält. Da ich die Behandlung nicht kannte, konnte ich diese Frage vorab aber nicht stellen. Diesen Aspekt vorab proaktiv anzusprechen, könnte dabei helfen, diese (wenn man es weiß - unnötige -) Angst und ggf. eine damit einhergehende Verspannung beim Patienten während der Behandlung zu vermeiden. Gut war, dass der Therapeut sofort reagiert hat und in der Behandlung kurz pausiert hat.

Translation: A huge compliment to Jesko Rheinfandt! Besides the great work, he also has a very authentic demeanor. He explains everything clearly and takes plenty of time for follow-up questions. You feel very well taken care of here. The treatment was incredible. I had been dealing with severe dizziness for about 1.5 years (after a roller coaster ride) and no one could help me. Numerous doctors, MRIs, and osteopathic treatments could not (permanently) help me. The atlas correction has allowed me to live a mostly dizziness-free everyday life again and has given me back a lot of quality of life. It's a shame that this treatment is relatively unknown. I think many other people could also be helped here. I still occasionally experience mild dizziness due to tension. However, I don't hold this against the treatment negatively, as it is due to my muscles and strain. Additionally, I can resolve this myself by massaging the areas shown to me. Thank you very much! Original: Ein riesen Kompliment an Jesko Rheinfandt! Neben der super Arbeit, auch ein sehr authentisches Auftreten. Er erklärt alles verständlich und nimmt sich viel Zeit für Rückfragen. Hier fühlt man sich sehr gut aufgehoben. Die Behandlung war der Wahnsinn. Ich hatte rund 1,5 Jahren mit starkem Schwindel zutun (nach Achterbahnfahrt) und keiner konnte mir helfen. Zahlreiche Ärzte, MRT's und osteopathische Behandlungen konnten mir nicht (dauerhaft)helfen. Die Atlaskorrektur hat mir wieder ein i.d.R. Schwindel freien Alltag ermöglicht und viel Lebensqualität zurückgeben. Schade das diese Behandlung relativ unbekannt ist. Ich denke hier könnten vielen anderen Leuten auch geholfen werden. Leichten Schwindel habe ich, aufgrund von Verspannungen, teilweise immer noch. Das ist aber nichts was ich der Behandlung negativ anrechne, sondern liegt an meiner Muskulatur und Belastung. Zudem kann ich diese dann durch massieren der mir gezeigten Stellen selber beheben. Vielen Dank!

Translation: Immediately after the treatment and for about a year afterwards, I had no more problems. However, it seems to me that my tense neck muscles have misaligned the vertebra again (if that's even possible). So I'm actually ready for another correction, which, given the price, shouldn't be necessary every year. Translation: After years of agony and severe cluster headaches, I became aware of atlas correction through the internet. I never would have thought it, but after a few weeks/months, the pain subsided, and I feel really good again. Therefore, I can confidently give five out of five stars. If there were six, I would give them too. Final verdict: Absolutely recommendable! Original: Nach Jahren der Qual und schlimmen Clusterkopfschmerzen bin ich über das Internet hinsichtlich der Atlas-Korrektur aufmerksam geworden. Ich hätte es niemals gedacht, aber nach wenigen Wochen/Monaten stellten sich die Schmerzen ein und ich fühle mich wieder richtig gut. Daher kann ich guten Gewissens fünf von fünf Sternen vergeben. Wenn es sechs geben würde, so täte ich es auch. Schlussfazit: Absolut empfehlenswert!

Translation: Good evening, after the first session I improved so much that I thought it was a miracle after years of ailments and pain. Unfortunately, after the second session, on the contrary, I got much worse. The ailments and pain increased dramatically, much more than before the first meeting, to the point that I was forced to restart traditional therapies to be able to endure the ailments and pain. I want to clarify that I do not hold the therapist of the second session responsible, as she did not intervene on the atlas but only with the basic massage. Original: Buonasera, dopo la prima seduta sono migliorata tantissimo tanto da pensare ad un miracolo dopo anni di disturbi e di dolori. Purtroppo dopo la seconda seduta al contrario sono peggiorata moltissimo. I disturbi e i dolori sono aumentati a dismisura molto più di prima del primo incontro tanto che sono stata costretta a dover ri-iniziare con le terapie tradizionali per poter sopportare i disturbi e dolori Ci tengo a precisare che non ritengo responsabile la terapeuta della seconda seduta, in quanto non è intervenuta sull'atlante ma solo con il massaggio base.

Translation: The treatment I received solved the very serious problem of pain in my throat, neck, left ear, and the left side of my shoulder. Besides the pain, my throat, neck, and the left side of my shoulder were at times as hard as steel (this was the sensation), and only with compresses made with heated grain bags did I get some relief. In truly unbearable severe cases, I would take an Aulin pill as a last resort to avoid despair (note that I had seen a specialist, a well-known otolaryngologist, and the treatments with vitamin B and others had been useless, and only massages could provide some relief, without identifying a specific cause. Then, searching the internet for neck pain problems, I read that a lady (I think from Bologna) recommended that if you have neck pain, the first thing to do is to have your atlas checked by Atlantomed in Chiasso). Bianchi had told me that the atlas was Original: Il trattamento ricevuto mi ha risolto il gravissimo problema del dolore alla gola, collo e orecchio sinistro e della parte sinistra della spalla, oltre al dolore la gola, collo e la parte sinistra della spalla in certi momenti erano duri come acciaio (questa era la sensazione) e solo con tamponi fatti con sacchetti di grano caldi riscaldati mi facevano un po di sollievo, e nei casi gravi veramente insopportabili prendevo una pastiglia di Aulin come ultima risorsa per non entrare in disperazione (notare che avevo fatto delle visite specialistiche da un importante otorinolaringoiatra e la cura di vitamina B ed altro non erano servite a niente, e solo fare dei massaggi potevano darmi dei giovamenti, senza però individuare una causa specifica. Poi cercando su internet per i problemi del dolore al collo, lessi che una signora (penso di Bologna) che consigliava se si avevano dei dolori al collo la prima cosa e di farsi controllare l'atlante da Atlantomed di Chiasso). ***** mi aveva detto che l'atlante era

Translation: The approach you have seemed very professional to me. The therapist was completely dedicated to me during the time we were together: impeccable. The low score for my satisfaction depends on two things: 1) what I gained in mobility after the treatment I have the distinct feeling has returned to how it was before (in fact, at the follow-up visit, I immediately received another treatment). I haven't noticed improvements in other things (headaches, etc.), evidently, it also takes a bit of luck or maybe I didn't need it that much (I knew it was an attempt that perhaps would solve who knows what problems of mine). 2) I would have expected more than just a satisfaction questionnaire, perhaps long-term monitoring and the possibility of having a check-up after some time but at lower costs. Best regards p.s. Is there no possibility to compare the photos you took with the current situation but at a distance? Original: L'approccio che avete mi è sembrato molto professionale. La terapeuta si è completamente dedicata a me nel tempo che siamo stati insieme: ineccepibile. Il voto basso alla mia soddisfazione dipende da due cose: 1) quello che ho guadagnato in mobilità dopo il trattamento ho la netta sensazione che sia tornato come prima (infatti alla visita di controllo ho subito un altro trattamento). Non ho notato miglioramenti in altre cose (mal di testa,...), evidentemente ci vuole anche un po' di fortuna o forse non ne avevo così bisogno (sapevo che era un tentativo che forse mi avrebbe risolto chissà quali miei problemi). 2) mi sarei aspettato più di un semplice questionario di gradimento, semmai un monitoraggio a lungo termine e la possibilità di fare un controllo dopo qualche tempo ma a dei costi più contenuti. Cordiali saluti p.s. Non c'è la possibilità di fare un raffronto delle foto che mi avete fatto con la situazione attuale ma a distanza?

Translation: Since May 2014, I have no longer suffered from cervical pain. Before, I was forced to take painkillers almost every day. Now I occasionally have a migraine, no more than two or three times a year. Your therapy has changed my life. Dr. Bianchi was very skilled and patient. The therapy itself was quite intense; I wasn't prepared for the idea that it would also be somewhat painful, but Dr. Bianchi gave me all the time and understanding I needed. After the therapy, I felt a slight neck pain and some dizziness for a week. Then, freedom. Thank you again! Original: Dal maggio 2014 non ho più sofferto di cervicgia. Translation: The treatment was effective for a few months, then the same problems started again. Given the cost and the premises, I imagined it would be definitive (or almost). I am disappointed that the package does not include a follow-up session after some time to verify the stability of the treatment. It would certainly show greater attention to the results achieved. On a human level, nothing to say, you were all very professional. Regards. Original: Il trattamento ha avuto effetto per qualche mese, poi sono ricominciati i medesimi problemi. Visto il costo e le premesse immaginavo che fosse definitivo (o quasi). Sono dispiaciuto che nel pacchetto non sia prevista una seduta di controllo a distanza di qualche tempo per verificare la stabilità del trattamento. Sicuramente denoterebbe maggiore attenzione ai risultati ottenuti. A livello umano nulla da dire, siete stati tutti molto professionali. Saluti

Translation: I was very surprised by the postural self-correction that followed the first treatment and discovered before the second by comparing the photographs. I realized something had happened because a few days after the treatment I had to change my pillow for sleeping, as the very high one I had was no longer comfortable, and I replaced it with a low one. When I then compared the before/after, the effect on my posture seemed almost unbelievable, without me realizing it. Original: Mi ha stupito molto l'auto correzione posturale seguita al primo trattamento e scoperta prima del secondo confrontando le fotografie. Avevo capito che fosse successo qualcosa perché dopo pochi giorni dal trattamento ho dovuto cambiare cuscino per dormire perché quello molto alto che avevo non lo trovavo più comodo e l'ho sostituito con uno basso. Quando poi ho fatto il confronto prima/dopo mi risultava quasi incredibile l'effetto avuto sulla postura, senza rendermene conto

Translation: It was worth a try! Unfortunately, no improvement could be observed. The fact that I am now using more tablets is probably due to an increasing habituation effect. Original: Es war ein Versuch wert! Leider war keine Verbesserung festzustellen. Dass ich inzwischen mehr Tabletten verwende, hängt vermutlich daran, dass es mehr und mehr einen Gewöhnungseffekt gibt.

Translation: Super experience and I would do it again anytime. Very nice therapist. Symptoms are not completely gone yet, but significantly better. I was also informed that it can take a long time. Original: Super Erfahrung und ich würde es jederzeit wieder machen. Sehr netter Therapeut. Symptome sind noch nicht ganz weg, aber deutlich besser. Wurde aber auch darüber aufgeklärt das es lange gehen kann

Translation: Frank Libossek is a very good therapist. He took the time to understand my problem in order to then do his best. After the first session, I felt better for a few days. However, before and after the second session, everything became significantly worse, which is certainly not due to the therapy but to the now diagnosed instability in the Dens Axis. I can only recommend Mr. Libossek to everyone. I would only recommend the Atlantomed method to a limited extent. Original: ***** Libossek ist ein sehr guter Therapeut. Er hat sich Zeit genommen mein Problem zu verstehen, um dann sein bestmöglichst zu versuchen. Nach der ersten Sitzung ging es mir einige Tage besser. Vor und nach der zweiten Sitzung wurde alles jedoch gravierend schlimmer, was sicher nicht an der Therapie liegt sondern an der nun mittlerweile diagnostizierten Instabilität im Dens Axis. Ich kann Herrn Libossek nur jedem empfehlen. Die Atlantomed Methode würde ich nur bedingt weiterempfehlen.
